PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed data quality, consistency, and reliability across multiple organizational systems, performing data cleaning, validation, and deduplication to resolve identified issues.
- Supported administration of key platforms including Salesforce CRM and Mailchimp, configuring system fields, forms, and workflows to enhance user experience.
- Built and monitored integrations between platforms using REST APIs and webhooks, mapping and transforming data to ensure synchronization across disparate systems.
- Developed and maintained reports and dashboards for internal teams using SQL and organizational data systems, producing ad hoc reports and extracting key performance metrics.
- Analyzed digital engagement data from websites and email campaigns to measure audience engagement and campaign performance, identifying trends and opportunities for improvement.
- Collaborated with technical leadership to implement scalable solutions for automation and data processes, identifying repetitive tasks suitable for simplification.
- Containerized Java Spring Boot applications using Docker and deployed them to AWS EC2 instances, managing build pipelines with Jenkins for continuous integration.

SKILLS

Data Management – Data Quality, Data Cleaning, Data Validation, Deduplication, Data Reconciliation, Data Governance, Data Standards

CRM & Systems Admin – Salesforce CRM, Mailchimp, System Configuration, Workflow Automation, User Support, Technical Documentation

Integrations & Automation – REST APIs, Webhooks, Data Mapping, Data Transformation, Workflow Development, Scripting

Reporting & BI – SQL, Power BI, Tableau, DAX, Power Query, Data Visualization, Ad Hoc Reporting, Business Intelligence

Analytics & AI – Python, Pandas, NumPy, Scikit-learn, Statistical Analysis, A/B Testing, AI Tools, Emerging Technologies

Core Technologies – Java, Spring Boot, PostgreSQL, MySQL, Oracle, AWS, Docker, Linux, Git, Jenkins

PROJECTS

Enterprise Systems Integration & Automation (HCL Technologies)

- Developed Python scripts to automate ETL processes for data migration between PostgreSQL and Oracle databases, reducing manual data handling by **40%**.
- Designed and implemented REST APIs using Java Spring Boot to facilitate cross-system integrations for an enterprise ERP platform, supporting data exchange between modules.
- Containerized the integration services using Docker, enabling consistent deployment across development and production environments on AWS.

Data Quality & Reporting Dashboard (MSc Data Analytics)

- Built an interactive Power BI dashboard to visualize key data quality metrics, enabling business stakeholders to monitor data completeness and identify anomalies.
- Performed data cleaning and transformation using Power Query on a dataset of **150,000** records, improving data accuracy for analytical reporting.
- Wrote complex DAX measures to calculate data quality scores and trends, providing actionable insights into system data integrity.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
