PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and deployed **Go-based platform services** and replacement for existing deployment systems, improving deployment reliability for multiple products.
- Managed infrastructure as code using **Terraform and Ansible** across diverse environments, including on-premise, cloud, and hybrid deployments on **AWS**.
- Strengthened observability by implementing and tuning **Grafana** dashboards and **OpenSearch** for metrics, monitoring, and alerting across production systems.
- Engineered and maintained **scalable CI/CD pipelines** using **GitLab CI/CD**, supporting automated testing and deployment workflows.
- Developed and refactored internal platform tools in **Go**, focusing on enhancing developer experience and operational efficiency.
- Independently investigated infrastructure bottlenecks and implemented measurable improvements in staging and ephemeral environments, reducing operating costs by approximately **15%**.
- Participated in operational support and troubleshooting activities, collaborating with R&D;, QA, and SRE teams to ensure platform stability.

SKILLS

DevOps & Platform Engineering – Go, GitLab CI/CD, Terraform, Ansible, Kubernetes, Docker, CI/CD, Infrastructure as Code

Cloud Platforms – AWS, Azure, GCP (Hybrid Environments)

Observability & Monitoring – Grafana, OpenSearch, Prometheus, Metrics, Alerting

Operating Systems & Virtualization – Linux, Windows Server, Hyper-V, PowerShell

Programming & Scripting – Go, Python, Shell Scripting

Databases & Storage – PostgreSQL, MySQL, Oracle, S3

PROJECTS

Internal Developer Platform Orchestration (HCL Technologies)

- Developed a **Go microservice** to manage deployment workflows and orchestrate infrastructure provisioning using **Terraform**, replacing a legacy system.
- Implemented **CI/CD pipelines** in **GitLab CI/CD** for automated builds, testing, and deployments to **Kubernetes** clusters, reducing manual deployment time by **40%**.
- Integrated **Grafana** and **Prometheus** for comprehensive monitoring of the platform services, enabling proactive issue detection and performance tuning.

On-Premise Infrastructure Automation Suite (HCL Technologies)

- Created **Ansible playbooks** to automate the configuration and management of **Windows Server** and **Hyper-V** environments, ensuring consistent setup across ~50 nodes.
- Developed **Python scripts** for data collection and reporting on infrastructure health, feeding into an internal operational dashboard.
- Managed **PostgreSQL** database configurations and backups as part of the infrastructure deployment process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
