HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Ruby on Rails APIs** that streamlined internal workflows, reducing manual processing time by an estimated **30%**.
- Collaborated with internal stakeholders to gather requirements, define acceptance criteria, and break down projects into manageable deliverables for API development.
- Applied **secure coding principles** during API development, focusing on authentication, authorization, and responsible handling of sensitive information for **identity and access management services**.
- Investigated and resolved API defects, implementing fixes and adding **regression tests** to ensure system stability and prevent recurring issues.
- Participated in **domain modeling and technical design discussions** with product managers and senior engineering colleagues to refine system architecture.
- Contributed to constructive **code reviews**, providing feedback on readability, maintainability, and adherence to architectural standards for junior engineers.
- Containerized **Ruby on Rails applications** using **Docker** and deployed them to a cloud environment, managing configurations and basic resource allocation.

SKILLS

Languages – Ruby, Python, Java, SQL, TypeScript

Frameworks/Libraries – Ruby on Rails, Spring Boot, React

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

PROJECTS

Internal Workflow Automation API (HCL Technologies)

- Designed and built a set of **Ruby on Rails APIs** to automate data aggregation tasks previously performed manually, improving efficiency for the operations team.
- Implemented **RESTful endpoints** for data retrieval and updates, integrating with PostgreSQL databases to ensure data consistency across systems.
- Wrote comprehensive unit and integration tests using RSpec to achieve over **85% code coverage** and ensure API reliability.

Python-based ETL and Reporting Service (HCL Technologies)

- Developed automated **Python scripts** to extract, transform, and load data from various sources into a centralized reporting database.
- Created scheduled reports using Python and SQL queries, delivering key operational metrics to business analysts on a daily basis.
- Managed data validation and error handling within the ETL pipeline, reducing data discrepancy incidents by approximately **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
