HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Contributed to setting out works for complex structural elements, ensuring precise alignment with contract drawings and site surveys across multiple project phases.
- Collaborated with planners and suppliers to synchronize construction schedules and material deliveries, optimizing workflow efficiency and reducing project delays by approximately 15%.
- Checked materials and works in progress against specifications and quality standards, contributing to the development and execution of Inspection and Test Plans for key substructure components.
- Managed and recorded the delivery of critical site materials, including concrete and reinforcement, maintaining accurate logs for project quantity surveyors and site management.
- Supported safe working practices by reviewing subcontractor safety plans and contributing to the preparation of method statements for site operations.
- Provided technical advice and quality control input for piling and superstructure trades, ensuring adherence to method statements and quality plans.
- Integrated **digital tools** into construction planning processes, enhancing efficiency and innovation through the adoption of new site survey technologies.

SKILLS

Engineering Principles – Setting out works, Dimensional controls, Quality standards, Technical coordination, Site surveys

Construction Trades – Piling, Geotechnical, Substructures, Superstructures, Facades

Digital Tools – Total stations, EDMs, Lasers, Dumpy levels, 3D scanning, Point cloud data, BIM

Project Management – Planning, Site diaries, Reporting, Audits, Method statements, Inspection and Test Plans

Site Operations – Material management, Concrete, Reinforcement, Site facilities, Snagging, De-snagging

PROJECTS

Structural Element Setting Out for Infrastructure Project

- Executed precise setting out for critical structural elements, including foundations and support columns, using **total station** technology for a large-scale infrastructure delivery programme.
- Collaborated with site engineers to verify dimensional accuracy against **AutoCAD drawings** and specifications, identifying and resolving discrepancies to maintain project integrity.
- Maintained detailed logs of setting out points and survey data, providing clear documentation for quality control and progress reporting to the project management team.

Digital Tool Integration for Site Survey Data

- Integrated **3D scanning** and point cloud data into the site survey workflow, enhancing the accuracy of as-built records for complex construction elements.
- Developed standardized procedures for capturing and processing survey data using **BIM** principles, improving data consistency for clash detection and design verification.
- Trained junior engineers on the operation of new surveying equipment and data processing software, contributing to improved team technical capabilities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
