PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided remote and on-site technical product demonstrations and presentations to channel partners across EMEA, addressing complex technical questions and objections during the sales cycle.
- Collaborated with product development and engineering teams to stay current on product features and enhancements, ensuring accurate technical guidance for partners.
- Acted as a technical advisor to channel partners, translating their business challenges into effective solutions using Keeper's cybersecurity platform.
- Managed pre-sales technical support for channel partners, identifying technical requirements and matching them to Keeper Security solutions to support the sales process.
- Developed and delivered technical product presentations and training sessions to channel partners and enterprise customers, enhancing their understanding and adoption of the platform.
- Analysed complex multivariate problems related to cybersecurity and customer requirements, applying a systematic approach to achieve timely resolutions under pressure.
- Containerised backend services using **Docker** and deployed them to **AWS EC2** instances, configuring **Jenkins** pipelines for automated builds and deployments.

SKILLS

Cybersecurity – Privileged Access Management (PAM), Zero-Trust, Zero-Knowledge, Identity and Access Management (IAM), SaaS Security, Enterprise Security Solutions

Sales Engineering – Pre-Sales Support, Post-Sales Support, Technical Demonstrations, Product Presentations, Solution Architecture, Requirements Gathering, Technical Advising

Operating Systems – Windows Server Administration, Active Directory, UNIX/Linux

Cloud Technologies – AWS, Azure

Networking – Networking Fundamentals, Security Applications

Languages & Scripting – English, Italian, Spanish, Python, Shell Scripting

Tools & Platforms – Salesforce, Docker, Jenkins, AWS

PROJECTS

Technical Enablement for Channel Partners (HCL Technologies)

- Developed comprehensive technical training materials and presentation decks for a new suite of enterprise security products, delivered to over 15 channel partners.
- Supported pre-sales engagements by conducting tailored product demonstrations based on partner-identified technical requirements, leading to an average increase of **15%** in technical qualification for opportunities.
- Collaborated with partner technical teams to troubleshoot integration challenges and provide Level-2 assistance, ensuring successful adoption of the solutions.

Cloud Security Solution Integration (HCL Technologies)

- Architected and implemented a proof-of-concept integration between an on-premises identity provider and a cloud-based security platform using **REST APIs** and **JSON**.
- Configured network security controls and access policies on **AWS** infrastructure, including security groups and IAM roles, to meet enterprise compliance standards.
- Automated the deployment of security configurations using **Python** scripts, reducing manual setup time by approximately **40%** for recurring tasks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
