PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collaborated with German-speaking enterprise customers to gather requirements and configure **Keeper's cybersecurity platform**, ensuring alignment with their unique business objectives and security needs.
- Developed and delivered technical training sessions to customer teams on effective utilization of **Keeper's PAM solutions**, enhancing user adoption and proficiency.
- Provided **Level 2 technical support** for SaaS implementations, adeptly troubleshooting and resolving customer concerns related to platform configuration and integration.
- Configured **Keeper's zero-trust and zero-knowledge solutions** to meet specific customer requirements, optimizing system performance and usability for diverse client environments.
- Managed multiple concurrent implementation projects for enterprise clients, ensuring timely delivery within scope and maintaining transparent communication of project status.
- Designed and implemented integrations for **Keeper's platform** with customer environments, including AD environments and DNS servers, facilitating seamless adoption.
- Troubleshot and resolved technical issues across **Windows and Linux administration**, including Linux Shell and PowerShell scripting for system management and automation.

SKILLS

SaaS Implementation – Implementation, Technical Support, Customer Onboarding, System Integration, SaaS Architecture, Cloud Technologies, Software Integration

Cybersecurity Software – Privileged Access Management (PAM), Zero-Trust, Zero-Knowledge, Security Software

Operating Systems & Scripting – Linux Shell, PowerShell, Windows Administration, Linux Administration

Networking & Authentication – Firewalls, Active Directory (AD), DNS Servers, Authentication Protocols, LDAP

Cloud & Environments – On-Premises Environments, Cloud Environments, Hybrid Environments

Customer Engagement – Customer Communication, Technical Training, User Guides, Knowledge Resources, Project Management

Programming & APIs – Python, APIs, Data Manipulation

PROJECTS

Customer Onboarding for a Secure Credential Management Platform

- Guided enterprise clients through the onboarding process for a secure credential management platform, defining implementation plans based on their IT security requirements.
- Configured platform settings, including **AD integration** and user access controls, to align with customer-specific security policies and workflows.
- Developed comprehensive user guides and documentation for customer IT teams to facilitate efficient adoption and day-to-day system management.

Technical Integration of Enterprise Security Tools

- Integrated enterprise security tools with existing customer IT infrastructure, focusing on network security protocols and authentication mechanisms.
- Scripted data extraction and transformation tasks using **Python** to support system migration and validation during integration projects.
- Provided post-implementation technical support, addressing customer inquiries and resolving integration-related issues to ensure system stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
