PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Acted as a customer-facing advisor for supply chain planning solutions, articulating platform value and serving as a subject matter expert across the customer journey.
- Led investigations into complex planning behaviors by analyzing data, configurations, and algorithms, identifying root causes and driving resolution plans with cross-functional teams.
- Provided functional and technical guidance during solution design and development, ensuring effective use of platform capabilities for scalable implementations.
- Defined and documented **Maestro best practices**, including authoring standards, data modeling, and integration considerations, presenting them to customers and internal teams.
- Drove continuous value and adoption by aligning on business objectives and recommending tactical improvements to processes and data configurations.
- Partnered with Product teams to translate customer challenges into clearly defined use cases and validate new features against market needs.
- Advised on and supported **Maestro integrations and data flows**, troubleshooting data quality issues and their end-to-end process impacts.

SKILLS

Supply Chain Planning – S&OP;, Demand Planning, Supply Planning, Production Planning, Inventory Management

Platform Expertise – Kinaxis Maestro, Solution Development, Authoring, Configuration, Integrations, Data Flows

Core Technologies – Python, Java, SQL, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Operations & Support – Production Support, Incident Response, SLA Management, Splunk, Dynatrace, Change Management

Methodologies – Agile, Scrum, CI/CD, Code Reviews

PROJECTS

Supply Chain Planning Optimization Initiative

- Analyzed and optimized **supply chain planning configurations** for a financial services client, improving forecast accuracy by **18%** through data-driven adjustments.
- Developed Python scripts to automate data extraction and validation for planning models, reducing manual processing time by **30%**.
- Collaborated with business analysts to define requirements for enhanced reporting dashboards, leading to improved visibility of key planning metrics.

Enterprise Integration Framework Development

- Designed and implemented **REST APIs using Java Spring Boot** for seamless integration between the payments operations dashboard and core ERP systems.
- Wrote **SQL queries** against PostgreSQL and Oracle databases to extract and transform data for reconciliation workflows, ensuring data integrity.
- Containerized integration services using **Docker**, facilitating consistent deployments across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
