PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed a team of 5 maintenance technicians, organizing daily tasks, providing technical guidance, and conducting performance reviews to enhance team efficiency.
- Developed and implemented a proactive planned preventative maintenance schedule for critical extrusion machinery, reducing unexpected downtime by **22%** within the first year.
- Led root cause investigations for recurring equipment failures, identifying systemic issues and implementing corrective actions that improved machine reliability by **15%**.
- Supported production operations by providing hands-on troubleshooting for complex mechanical and electrical issues on automated extrusion lines, minimizing production stoppages.
- Managed the full lifecycle of two capital engineering projects, from initial concept and vendor selection through to commissioning and final handover, ensuring projects were delivered on time and within budget.
- Ensured strict adherence to health, safety, environmental, and statutory maintenance regulations across all plant operations, including machinery safety standards and contractor management.
- Integrated a new **CMMS system**, configuring asset hierarchies, maintenance task lists, and work order workflows to streamline maintenance operations and improve data tracking.

SKILLS

Maintenance & Reliability – Planned Preventative Maintenance (PPM), Asset Reliability, Breakdown Response, Root Cause Analysis (RCA), CMMS, Machinery Safety, Statutory Maintenance

Engineering & Projects – Capital Projects, Project Lifecycle Management, Commissioning, Concept to Completion, Site Services, Continuous Improvement

Manufacturing & Operations – High-Volume Manufacturing, Extrusion, Continuous Process, Plant Performance, Productivity, Efficiency

Systems & Automation – Mechanical Systems, Electrical Systems, Automation, PLC-Controlled Equipment, Industrial Utilities, Pneumatics, Hydraulics

Leadership & Team Management – Team Leadership, Team Development, Performance Management, Technical Guidance

PROJECTS

Extrusion Line Reliability Improvement Initiative

- Analyzed historical maintenance logs and operational data from **3 extrusion lines** to identify key failure points and predict potential downtime events.
- Designed and rolled out an enhanced preventative maintenance program for critical components, incorporating specific checks for **motors, gearboxes, and control systems**.
- Implemented a structured **Root Cause Analysis (RCA)** framework for all major breakdowns, leading to a **18% reduction** in repeat failures within six months.

Automated Material Handling System Upgrade

- Led the technical evaluation and selection of a new automated conveyor system to replace an aging manual process, focusing on integration with existing **PLC controls**.
- Managed the installation and commissioning phase, coordinating with external vendors and internal production teams to minimize disruption to ongoing operations.
- Developed comprehensive operator training materials and conducted on-site sessions for the new system, ensuring smooth production handover and initial operational stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
