PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Conducted comprehensive **workstation and ergonomic assessments** for over 40 corporate client employees, identifying postural risks and recommending adjustments to improve comfort and productivity.
- Developed clear, actionable **assessment reports** for corporate clients, detailing practical recommendations and prioritized actions for ergonomic improvements, leading to a **15% reduction** in reported discomfort for assigned client groups.
- Delivered **ergonomics training sessions** and workshops to over 100 employees across three client organizations, covering topics such as workstation setup, safe working postures, and the use of specialist equipment.
- Managed relationships with **key HR and Health & Safety stakeholders** at assigned corporate accounts, ensuring alignment on programme delivery and escalating issues to maintain service quality.
- Coordinated the scheduling and delivery of ergonomic assessments and training for a portfolio of **5 corporate clients**, ensuring timely completion and adherence to agreed service levels.
- Recommended and facilitated the fitting of **specialist ergonomic equipment**, including seating and desks, to meet individual employee requirements and enhance workplace wellbeing.
- Maintained accurate **client records and meeting notes** within a CRM system, tracking progress on ergonomic programmes and identifying opportunities for service expansion.

PROJECTS

Corporate Ergonomics Programme Implementation

- Designed and executed a pilot **ergonomics programme** for a mid-sized tech company, involving **onboarding 50 employees** through initial assessments and tailored equipment recommendations.
- Prepared and presented final programme review findings to **client HR and management teams**, highlighting improvements in reported comfort levels and a **10% decrease** in musculoskeletal-related queries.
- Developed a standardised workflow for remote and on-site **ergonomic assessments**, integrating feedback mechanisms to refine the process for future client engagements.

Specialist Equipment Recommendation & Training

- Developed a comprehensive guide to **specialist ergonomic equipment**, cataloguing features and benefits for use in client consultations and training materials.
- Conducted hands-on **equipment fitting and user education** sessions for 25 employees, ensuring correct usage and maximizing the benefit of their workstation setup.
- Documented the impact of recommended equipment on user comfort and productivity, gathering qualitative feedback that informed future product recommendations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
