HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented AI agent workflows using **Python**, integrating **LangChain** and **Azure OpenAI** to automate client reporting processes, reducing manual effort by approximately **40%**.
- Developed and deployed **LLM applications** on **Azure Container Apps**, incorporating **RAG** patterns for enhanced data retrieval and contextual understanding for enterprise clients.
- Engineered data pipelines in **Python** on **AWS Lambda** and **S3** to process and stage client data for AI model training, handling up to **3,500 events per second** during peak loads.
- Collaborated with client architects to integrate **AI solutions** into existing systems, ensuring adherence to security and data protection standards, including **EU AI Act** considerations.
- Developed **prompt engineering** strategies and evaluated LLM outputs for accuracy and relevance, contributing to a more reliable user experience for deployed AI agents.
- Wrote comprehensive technical documentation and runbooks for deployed AI solutions, facilitating knowledge transfer and enabling client teams for effective adoption and support.
- Containerized AI services using **Docker** and deployed them to **Azure Kubernetes Service (AKS)**, configuring basic resource limits and scaling policies for predictable performance.

SKILLS

AI/ML – LLM, GenAI, RAG, Prompt Engineering, Agent Frameworks, LangChain, Semantic Kernel, Azure OpenAI, Claude, Azure AI

Programming Languages – Python, TypeScript, C#, SQL

Cloud Platforms – Azure (Foundry, AI Search, Functions, Container Apps, AKS), AWS, GCP

Data & Pipelines – APIs, Data Pipelines, SQL, Data Warehousing, ETL

DevOps & Infrastructure – CI/CD, Containers, Docker, Kubernetes, Infrastructure as Code, LLMOps

Consulting & Delivery – Client Engagement, Workshop Facilitation, Stakeholder Management, Solution Design, Documentation, Training, Change Management

PROJECTS

AI Agent for Client Operations Automation

- Developed an **AI agent** using **Python** and **LangChain** to automate key client operational tasks, including data ingestion from disparate sources and report generation.
- Implemented a **RAG pattern** with **Azure AI Search** to provide the agent with access to a curated knowledge base, improving response accuracy for client-specific queries by an estimated **35%**.
- Containerized the agent application using **Docker** and deployed it to **Azure Container Apps**, ensuring seamless integration into the client's existing cloud infrastructure.

LLM Integration for Enterprise Data Analysis

- Built a proof-of-concept integrating a large language model (via **Azure OpenAI**) with client SQL databases to enable natural language querying for business analysts.
- Designed and implemented **API endpoints** using **FastAPI** to serve LLM responses and manage user interactions, achieving a p95 latency of under **200ms**.
- Created detailed documentation and conducted a technical walkthrough for the client's data science team on the solution's architecture and potential use cases.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
