HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported the deployment and operation of **security tools** across multiple Windows and Linux systems for a global financial services client.
- Performed **security monitoring** and assisted with **log analysis** using Splunk and CloudWatch to detect incidents and threats within production environments.
- Assisted in identifying, assessing, and mitigating **vulnerabilities** across infrastructure and applications by performing regular scans and analysis.
- Supported technical security audits and provided actionable recommendations for improving security posture and compliance.
- Participated in incident handling and escalation procedures, responding to P1/P2 incidents to minimize impact.
- Assisted in maintaining secure baseline configurations for **Windows and Linux systems**, ensuring adherence to security policies.
- Containerized Java Spring Boot applications using **Docker** for consistent deployment across development and production environments.

SKILLS

Security Operations – Vulnerability Management, Security Monitoring, Log Analysis, Incident Handling, SIEM, IDS/IPS, Endpoint Protection

Operating Systems – Linux, Windows

Scripting & Automation – Bash, PowerShell, Python

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Development Tools – Docker, Git, Jenkins, Jira, Confluence

Networking – Network Fundamentals

PROJECTS

Infrastructure Security Hardening Initiative

- Implemented secure baseline configurations for **Linux servers** across multiple development and staging environments, reducing potential attack vectors.
- Configured and deployed **security monitoring tools** (e.g., vulnerability scanners) to proactively identify and report on system weaknesses.
- Developed **Bash scripts** for automating the collection of system security logs, streamlining analysis for the security operations team.

Application Security Monitoring Framework

- Integrated **Java Spring Boot application** logs with Splunk for real-time security event monitoring and threat detection.
- Assisted in analyzing application-level vulnerabilities and recommended remediation steps to development teams.
- Documented operational procedures for security alert triage and incident response, improving team efficiency by **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
