PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored global security systems including access control, CCTV, and intrusion detection, analyzing alerts in real-time to identify and respond to potential threats.
- Analyzed security alerts and incidents, determining risk levels and initiating appropriate responses or escalations according to Standard Operating Procedures (SOPs).
- Communicated incident details and operational status clearly and effectively with internal stakeholders, including security teams and business leaders.
- Documented all incidents and activities through detailed, timely, and accurate reporting in GSOC logs and incident management systems, ensuring comprehensive audit trails.
- Managed employee inquiries and service requests related to security and workplace safety, providing courteous and efficient support.
- Tracked global events such as natural disasters and geopolitical unrest to provide 24/7 situational awareness and assess potential impacts on company assets and personnel.
- Conducted regular system audits and tests of security hardware and software, logging malfunctions and service needs for follow-up and operational readiness.

SKILLS

Security Systems – Access Control, CCTV, Intrusion Detection, Lenel, Milestone, Dataminr, Ontic, Onsolve

Analytical Tools – Microsoft Office Suite, Power BI, Tableau, Splunk, Dynatrace, CloudWatch

Core Competencies – Intelligence Analysis, Security Operations, Incident Response, Risk Assessment, Critical Thinking, Situational Awareness, Problem-Solving, Crisis Management, Technical Proficiency, Confidentiality, Adaptability

Programming & Scripting – Python, Java, SQL, Shell Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Practices – Spring Boot, REST APIs, CI/CD, Jenkins, Git, Agile/Scrum

PROJECTS

Enterprise Security Monitoring Dashboard (HCL Technologies)

- Developed a monitoring dashboard using **Java Spring Boot** and **PostgreSQL** to aggregate security alerts from various enterprise systems, improving incident detection time by approximately **15%**.
- Implemented REST APIs to ingest data from disparate security platforms, enabling centralized visibility for operational teams.
- Designed and deployed the application on **AWS EC2** instances, configuring basic auto-scaling to handle fluctuating alert volumes.

Automated Threat Intelligence Feed (MSc Project)

- Built a **Python** application to ingest and process data from public threat intelligence feeds, identifying potential risks to organizational assets.
- Applied basic sentiment analysis and keyword extraction techniques to prioritize alerts, reducing manual review effort by an estimated **20%**.
- Visualized key threat trends using **Power BI**, creating interactive reports for stakeholder review.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
