PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided omnichannel technical support via **Zendesk**, resolving customer inquiries and escalating critical issues to senior technical staff.
- Delivered on-site technical training sessions to clients and partners on equipment operation and maintenance, ensuring expert-level understanding.
- Supported project management for new product releases by preparing technical documentation, spares, and market support protocols.
- Collaborated with the Senior Tech team and R&D; to relay customer feedback and field data for product improvement initiatives.
- Managed the RMA process, evaluating returned units to identify root causes and contributing to trend analysis for quality assurance.
- Created and updated **troubleshooting guides**, FAQs, and training materials to enhance customer self-service and support efficiency.
- Ensured meticulous logging of all support tickets, repairs, and site visit reports within **Zendesk** and **Epicor** for accurate record-keeping.

SKILLS

Customer Support Tools – Zendesk, CRM

ERP Systems – Epicor

Technical Support – Fault-finding, Equipment Servicing, Troubleshooting, Commissioning

Project Management – Launch Coordination, Documentation, Process Improvement

Communication & Training – Verbal Communication, Written Communication, Customer Training, Relationship Building

General IT – Microsoft Office Suite, Linux

PROJECTS

Technical Support & Training Program Development

- Developed a comprehensive training curriculum for new product launches, incorporating hands-on exercises and troubleshooting scenarios for field technicians and customer engineers.
- Created a knowledge base within **Zendesk**, documenting common issues and solutions, which reduced average ticket resolution time by **18%** for the support team.
- Conducted pilot training sessions for internal teams, gathering feedback to refine materials and delivery methods before external rollout.

Customer Equipment Onboarding & Integration

- Provided on-site technical consulting for key enterprise customers during new equipment installations, ensuring seamless integration with existing systems.
- Managed the end-to-end commissioning process for **12+ customer sites**, verifying functionality and adherence to operational standards.
- Documented integration best practices and created reusable configuration templates, accelerating the onboarding process for subsequent deployments.
