HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **highly available and scalable infrastructure** on **AWS**, including EC2, S3, and VPC configurations, to support critical business applications.
- Built and maintained **CI/CD pipelines** in **Azure DevOps** for automated build, test, and deployment, reducing release cycle time by **30%**.
- Deployed, managed, and optimised **containerised applications** using **Docker** and **Kubernetes (EKS)**, ensuring efficient resource utilisation and application stability.
- Developed and maintained automation scripts using **Python** and **Bash** for system administration tasks and routine operational processes, saving approximately **15 hours** of manual effort per week.
- Defined and monitored **SLIs, SLOs, and SLAs** for key services, proactively identifying and addressing performance bottlenecks to maintain system reliability.
- Led incident management, troubleshooting, and **root cause analysis (RCA)** for production issues, implementing corrective actions to prevent recurrence and improve overall system resilience.
- Implemented **Infrastructure as Code (IaC)** using **Terraform**, enabling repeatable and automated provisioning of cloud resources and ensuring consistent environments.

SKILLS

Cloud Platform – AWS, EC2, S3, RDS, VPC, IAM, ELB, Auto Scaling, CloudWatch

CI/CD & DevOps – Azure DevOps Pipelines, YAML, Kubernetes, EKS, Docker, Terraform, CloudFormation

Scripting & Automation – Python, Bash, PowerShell

Operating Systems – Linux, Windows Server, IIS

Monitoring & Observability – Prometheus, Grafana, Azure Monitor

Development & Infrastructure – .NET, REST APIs, Git, Jenkins

PROJECTS

Cloud Infrastructure Automation for Enterprise Systems (HCL Technologies)

- Automated the provisioning and configuration of **AWS EC2 instances** and **RDS databases** using **Terraform**, reducing deployment times by **40%** for new environments.
- Developed **Python scripts** to automate routine system checks and log analysis on **Linux** servers, improving detection of potential issues by **25%**.
- Integrated **Jenkins pipelines** with Git for automated builds and deployments, streamlining the release process for internal Java applications.

Containerised Application Deployment Pipeline (HCL Technologies)

- Designed and implemented a **CI/CD pipeline** using **Azure DevOps** to build, test, and deploy **Docker** containerised applications to **AWS EKS**.
- Configured **Kubernetes deployments** and services, managing application lifecycle and ensuring high availability through rolling updates and health checks.
- Established **monitoring and alerting** for containerised services using **Prometheus and Grafana**, enabling proactive issue identification and response.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
