HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **multi-region AWS infrastructure**, including **EC2 instances**, **S3 buckets**, and **Lambda functions**, to support a growing SaaS platform, improving deployment consistency across environments.
- Developed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, automating build, test, and deployment processes for cloud-based ERP solutions, reducing manual intervention by **40%**.
- Automated operational tasks and data processing using **Python scripting**, creating ETL jobs and scheduled reports that streamlined data flow for business systems.
- Managed and optimized **PostgreSQL databases**, performing schema changes, data validation, and ad-hoc querying to support application functionality and ensure data integrity.
- Containerized applications using **Docker** and deployed them to AWS environments, establishing a foundation for scalable and portable cloud deployments.
- Collaborated with cross-functional teams to gather requirements for infrastructure enhancements and troubleshoot production issues, ensuring platform reliability and performance.
- Participated in a structured on-call rotation, responding to critical incidents and performing root cause analysis to maintain high availability for enterprise applications.

SKILLS

Cloud Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, multi-region environments

Automation & Scripting – Python, Bash, PowerShell

CI/CD & DevOps – Jenkins, Git, Docker, Infrastructure as Code

Databases – SQL Server, PostgreSQL, DocumentDB

Core Technologies – Java, Spring Boot, REST APIs, Linux

PROJECTS

AWS Infrastructure Automation for SaaS ERP

- Engineered automated provisioning of **AWS resources** including **VPCs**, **EC2 instances**, and **RDS PostgreSQL databases** using **Terraform**, enabling rapid deployment of development and staging environments.
- Developed **Python scripts** to automate the configuration and management of cloud infrastructure, reducing manual setup time for new service deployments by approximately **30%**.
- Implemented monitoring and alerting using **AWS CloudWatch**, ensuring timely notification of infrastructure performance deviations and potential issues.

CI/CD Pipeline Enhancement for Enterprise Applications

- Built and optimized **Jenkins CI/CD pipelines** for Java Spring Boot applications, integrating automated testing and deployment stages to streamline the release process.
- Containerized existing Java applications using **Docker**, ensuring consistent runtime environments and simplifying deployment to AWS EC2 instances.
- Managed Git repositories, implemented branching strategies, and conducted code reviews to maintain code quality and facilitate team collaboration.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
