HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Automated **production monitoring** and incident response for enterprise applications using **Splunk** and **Dynatrace**, maintaining strict SLAs for P1/P2 incidents.
- Developed **Python scripts** to automate ETL processes and generate scheduled operational reports, reducing manual data compilation time by approximately **40%**.
- Managed **CI/CD pipelines** using **Jenkins** and **Git** for code deployment and integrated **code reviews** into the development workflow.
- Designed and implemented solutions to improve the **reliability**, **performance**, and **scalability** of software applications in production environments.
- Installed, configured, and tested operating systems, application systems, and **system management tools**, ensuring seamless integration.
- Partnered with engineering teams to automate the **monitoring**, **alerting**, and **availability** of applications and systems, enhancing operational stability.
- Containerized services using **Docker** and deployed them to **AWS EC2** instances, managing configurations and scaling based on demand.

SKILLS

Cloud Providers – AWS, GCP, Azure

Operating Systems – Linux, Windows, MAC OS

Scripting Languages – Python, Bash

CI/CD & IaC – Jenkins, Groovy, Git, Docker, Kubernetes

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Project Management Tools – Jira, Confluence

PROJECTS

Automated Production Support Framework (HCL Technologies)

- Engineered a **Python-based framework** to automate the collection and analysis of logs from distributed systems using **Splunk**, reducing incident triage time by **30%**.
- Developed automated health checks and recovery procedures in **Bash** and **Python** for critical enterprise applications running on **Linux** and **AWS EC2**.
- Created comprehensive runbooks and documentation in **Confluence** for common production issues, enabling faster resolution by operations teams.

Scalable Release Automation Pipeline (HCL Technologies)

- Designed and implemented a **Jenkins pipeline** using **Groovy** to automate the build, test, and deployment process for Java Spring Boot applications.
- Integrated **Docker** for containerization, ensuring consistent environments across development, staging, and production, with deployments managed via **AWS S3**.
- Developed **Python scripts** for post-deployment validation checks, significantly improving the reliability of release cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
