HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** backend services using **FastAPI** to support new product features, handling approximately **1,500 requests per minute** during peak hours.
- Developed and maintained **CI/CD pipelines** using **GitLab CI** for automated testing and deployment of cloud-native applications to **AWS**.
- Provisioned and managed **AWS infrastructure** including **EC2, S3, RDS, and Lambda** using **Terraform** for Infrastructure as Code.
- Contributed to **architecture decisions** and conducted **code reviews** for backend services, ensuring adherence to engineering standards and best practices.
- Integrated **security and quality checks** into development and deployment workflows, reducing critical vulnerabilities by **15%**.
- Took ownership of solutions from prototype through deployment, ensuring operational readiness and applying principles of **scalability and cost optimization**.
- Worked with **relational databases** such as **PostgreSQL** to design efficient data models and query solutions for backend services.

SKILLS

Cloud Platforms – AWS, EC2, S3, Lambda, API Gateway, RDS, DocumentDB, DynamoDB, SQS, SNS

Backend Development – Python, FastAPI, Flask, Django, REST APIs

Databases – PostgreSQL, MySQL, MongoDB, DocumentDB, DynamoDB

DevOps & CI/CD – Terraform, GitLab CI, Jenkins, Docker, Kubernetes, Infrastructure as Code

Programming Languages – Python, Java, SQL, R

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

PROJECTS

Cloud-Native Backend for Compliance Platform

- Developed a **Python Flask** backend service to manage compliance data workflows, integrating with **PostgreSQL** for persistent storage.
- Designed and implemented **RESTful APIs** for data ingestion and retrieval, supporting approximately **1,200 daily transactions**.
- Containerized the application using **Docker** and deployed it to **AWS EC2**, configuring basic auto-scaling rules.

Automated Infrastructure Deployment with Terraform

- Authored **Terraform** modules to provision and manage **AWS** resources including **VPCs, security groups, and RDS instances**.
- Established **CI/CD pipelines** using **GitLab CI** to automate the deployment of infrastructure changes, reducing manual deployment time by **40%**.
- Integrated infrastructure security best practices, ensuring compliance with cloud security standards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
