PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Led consultative customer conversations to build **digital transformation security strategies**, collaborating across internal and partner teams to enable customer security enablement.
- Drove **new Security opportunities** by engaging business decision-makers, understanding their priorities, and articulating Microsoft's value proposition, resulting in **pipeline generation**.
- Assessed customer business and technology readiness, mapping external stakeholders and executing strategies that accelerated **deal progression** and closed prioritized opportunities.
- Collaborated with account teams and partners on **account planning**, strategies, and forecasting to pursue high-potential customers and maximize business outcomes.
- Mentored junior team members and shared intelligence across solution areas to inform pursuit and positioning strategies, partnering with internal SMEs.
- Analyzed competitor solutions and identified differentiation opportunities to implement strategies that strengthened the company's market position.
- Containerized Python-based AI workforce solutions using **Docker** and deployed them to **AWS EC2** instances, ensuring scalable and reliable execution.

SKILLS

Sales & Strategy – Business Value Selling, AI Workforce, Copilot Specialist, Digital Transformation, Security Strategies, Partner Collaboration, Territory Planning, Pipeline Management, Co-sell Motions

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Programming & Scripting – Python, Java, Spring Boot, SQL

Containerization & Orchestration – Docker, Kubernetes

Development Tools & Methodologies – Git, Jenkins, Agile, Scrum, Jira, Confluence

Observability & Monitoring – Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

PROJECTS

AI Workforce Security Strategy Implementation

- Developed and presented tailored **AI workforce security strategies** to enterprise clients, aligning with their business and technology priorities.
- Collaborated with client engineering teams to integrate security solutions, ensuring successful adoption and adherence to best practices.
- Conducted post-sales technical walkthroughs to demonstrate the value and functionality of deployed security solutions.

Python-based Automation for Enterprise Systems

- Engineered Python scripts to automate ETL processes for enterprise business systems, improving data consistency across **PostgreSQL** and **Oracle** databases.
- Developed REST APIs using **Flask** to facilitate cross-system integrations, supporting data flows between operational platforms and ERP modules.
- Managed CI/CD pipelines using **Jenkins** for automated testing and deployment of Python-based automation tools.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
