HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Python**-based AI agent services on **Azure**, integrating with **M365 Copilot Studio** for enhanced end-user experiences.
- Fine-tuned **large language models (LLMs)** for natural language understanding tasks, achieving a **15%** improvement in response accuracy for conversational AI agents.
- Implemented **prompt engineering** techniques to refine model outputs, resulting in a **20%** reduction in irrelevant responses for customer-facing AI agents.
- Wrote scalable **Python** code for model training and evaluation pipelines, processing approximately **10,000** data points per training run.
- Optimized **AI models** for production environments, reducing inference latency by **30%** and improving cost efficiency on **Azure** infrastructure.
- Collaborated with cross-functional teams to integrate **AI solutions** into the M365 ecosystem, ensuring seamless user adoption and feedback incorporation.
- Containerized AI services using **Docker** and deployed them to an **Azure Kubernetes Service (AKS)** cluster, managing CI/CD pipelines with **Jenkins**.

SKILLS

AI/ML – Large Language Models (LLMs), Model Training, Model Evaluation, Inference, Prompt Engineering, Deep Neural Networks, Scikit-learn, PyTorch, TensorFlow

Programming Languages – Python, Java, C#, JavaScript, C++, C

Cloud Platforms – Azure, Azure AI Foundry, Azure Kubernetes Service (AKS), AWS, GCP

Frameworks & Libraries – React, LangChain, NumPy, Pandas, Matplotlib, Jupyter, FastAPI, Flask, Spring Boot

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Agent based architectures

PROJECTS

AI Agent Cloud Orchestration Platform

- Developed a **Python**-based backend service for managing AI agent lifecycles, integrating with **Azure AI Foundry** services.
- Implemented RESTful APIs using **FastAPI** to enable secure communication between AI agents and the M365 ecosystem, handling ~500 requests per minute.
- Containerized the platform components with **Docker** and orchestrated deployments on a development **Kubernetes** cluster.

Customer-Facing AI Assistant Integration

- Engineered a **Python** pipeline to process and transform user input for downstream LLM processing, improving data quality by **22%**.
- Applied advanced **prompt engineering** techniques to customize responses for a specific customer segment, increasing user satisfaction scores by **18%**.
- Collaborated with a product team to integrate the AI assistant into a **React**-based user interface, facilitating initial UAT with internal stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
