PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Mapped user workflows and designed user journeys for complex educational software features, translating research and support feedback into actionable design specifications.
- Created detailed wireframes and interactive prototypes in **Figma** to visualize user flows, define UI elements, and iterate on interaction patterns for various user roles.
- Designed clear and accessible user interfaces, focusing on layout, visual hierarchy, responsive behavior, and writing precise labels and instructions for software components.
- Collaborated with engineering teams to align Figma designs with the existing **design system**, identifying opportunities for component reuse and advocating for new patterns when necessary.
- Explored and documented design options, evaluating their strengths, limitations, and technical feasibility in partnership with senior engineers and product leadership.
- Reviewed implemented features in production, identifying and resolving interaction or usability issues, and ensuring consistency between design specifications and the shipped product.
- Analyzed user behavior data and support tickets to identify pain points and areas for improvement, feeding these insights back into the design process for iterative enhancements.

SKILLS

Design Tools – Figma, Prototyping, Wireframing

Design Principles – User Workflow Analysis, Interaction Design, Visual Clarity, Accessibility, Responsive Web Design, Design Systems

Collaboration & Communication – Cross-functional Teamwork, Written Communication, Design Critique, Stakeholder Communication, Requirements Gathering

Technical Skills – Python, Java, SQL, Spring Boot, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, Power BI, Tableau, R, pandas, scikit-learn

Education & Analytics – MSc Data Analytics, Power BI, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Methods, Machine Learning Fundamentals

PROJECTS

Educational Platform Design System Enhancement

- Developed a comprehensive library of reusable UI components in **Figma**, standardizing visual elements and interaction patterns across the educational platform.
- Authored detailed documentation for new design patterns, including usage guidelines, edge cases, and accessibility considerations, to facilitate adoption by other designers and engineers.
- Collaborated with product managers to integrate user feedback and analytics into the design system, ensuring it met evolving user needs for clarity and usability.

Student Workflow Optimization Tool (MSc Project)

- Designed and prototyped a tool to help students manage academic workflows, focusing on clear task visualization and progress tracking using **Figma**.
- Conducted user research with fellow students to understand pain points in managing coursework and deadlines, informing the design of the tool's core features.
- Created interactive prototypes to demonstrate intended functionality and gather feedback on usability and effectiveness for academic task management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
