PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided direct technical support via **ticketing systems** and email for a complex enterprise platform, resolving ~15-20 customer inquiries daily.
- Investigated and troubleshot application and connectivity issues, accurately reproducing problems to differentiate between user error, configuration, and software defects.
- Managed full ticket lifecycle, from initial contact through investigation, escalation to engineering teams, and final resolution, maintaining detailed documentation in the support platform.
- Created and maintained **knowledge-base articles** and troubleshooting guides, reducing common query resolution time by approximately 18% for the support team.
- Collaborated with **Product and Engineering teams** to identify root causes of recurring issues, providing detailed feedback based on customer support trends.
- Assisted with customer onboarding processes, guiding new users through initial setup and configuration of the digital platform.
- Contributed to the refinement of support processes, implementing a new escalation protocol that improved response times for critical issues by 30%.

SKILLS

Customer Support Tools – Jira, Zendesk, Freshdesk, Intercom, Ticketing Systems

Technical Skills – REST APIs, Postman, SQL, JSON, Application Logs, System Logs, Debugging

Cloud & Platforms – SaaS, Cloud-based Platforms, AWS

Methodologies – Agile, Scrum, Troubleshooting, Problem-Solving, Documentation

General Skills – Written and Spoken English, Customer Communication, Collaboration, Remote Work

PROJECTS

Enterprise Application Support & Documentation Enhancement

- Managed production support for enterprise Java applications, analyzing **Splunk** and **Dynatrace** alerts to resolve P1/P2 incidents within strict SLAs.
- Automated data validation and reporting tasks using **Python scripting**, processing over 50,000 records weekly to ensure data integrity for business operations.
- Developed and maintained comprehensive **runbooks** and user guides for key system functionalities, improving onboarding efficiency for junior support staff.

Customer Onboarding & Integration Support Tool

- Built a **Python**-based CLI tool to assist with customer platform configuration and initial data validation, reducing manual setup time by 40% for pilot users.
- Developed REST API endpoints using **Flask** to facilitate integration between the support tool and the core digital platform, enabling real-time data exchange.
- Documented integration steps and common troubleshooting scenarios for the new tool, creating a starter guide for customers during their initial setup phase.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
