PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported delivery and continuous improvement of **Business Systems** across multiple departments by collaborating to understand requirements and map appropriate solutions.
- Provided direct application support for **Business Systems** within the assigned remit, analysing and resolving master data issues to maintain data integrity.
- Assisted with on-site support for **Business System implementations and upgrades**, ensuring smooth transitions and minimal disruption.
- Developed comprehensive **user documentation and training materials** for new business processes and system procedures, facilitating user adoption.
- Supported the setup and maintenance of **Group Master Data** across all Business Systems, implementing processes to preserve data quality and integrity.
- Collaborated with business departments to develop and implement processes aimed at streamlining **master data collection** from existing operations.
- Participated in **Agile/Scrum ceremonies**, contributing to sprint planning, defect tracking in Jira, and cross-functional team collaboration.

SKILLS

Business Systems Support – ERP Solutions, Master Data Management, Application Support, Business Process Improvement, User Documentation, Training Materials

Data Management – Master Data Quality, Data Integrity, Data Collection, Data Analysis, Issue Resolution

Core Technologies – SQL, Java, Spring Boot, Python, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis

Project & Process – Agile Methodologies, Scrum, Change Management, Requirements Gathering, UAT Support, Incident Response

PROJECTS

ERP Master Data Harmonization Initiative

- Developed and implemented a standardized process for loading and validating **master data** across critical ERP modules, improving data consistency for supply chain operations.
- Automated data quality checks using **Python scripts** to identify and flag discrepancies in product and vendor master data, reducing manual validation effort by 40%.
- Created detailed **user guides and training documentation** for the master data management team, covering new workflows and system functionalities.

Financial Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** by developing new Python-based ETL jobs to ingest and process transaction data, enabling near real-time monitoring.
- Collaborated with business analysts to refine **transaction monitoring** views and alerts within the dashboard, improving the identification of failed payment messages by 15%.
- Managed **database schema changes** in PostgreSQL to accommodate new data fields required for enhanced reconciliation workflows, ensuring data integrity post-update.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
