HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts to automate ETL processes for daily reporting, reducing manual effort by an estimated **15 hours** per week.
- Developed and maintained **Java Spring Boot** REST APIs for cross-service data exchange, processing approximately **2,000 requests** per minute during peak hours.
- Managed incident response for enterprise applications on **AWS**, resolving P1/P2 issues within defined SLAs using **Splunk** and **Dynatrace** for monitoring.
- Built seamless integrations between core web applications and **PostgreSQL** databases, ensuring data consistency across multiple enterprise systems.
- Partnered with business stakeholders to evaluate technical feasibility for automation opportunities, translating requirements into actionable technical designs.
- Created comprehensive test scenarios and supported User Acceptance Testing (UAT) for new automation features, actively participating in defect tracking and resolution.
- Containerised backend services using **Docker** for consistent deployment across development and production environments, improving deployment success rates by **18%**.

SKILLS

Frontend – React, Next.js, TypeScript

Backend & Data – Python, PySpark, PostgreSQL

Cloud & Architecture – AWS, RESTful API, Microservices, Docker, Kubernetes

DevOps & CI/CD – Jenkins, Git

Data & Analytics – Data Quality, Anomaly Detection, Statistical Concepts

Domain Experience – Finance Operations, Supply Chain Operations

PROJECTS

Automated Financial Reconciliation System

- Developed a **Python**-based system to automate reconciliation workflows between core banking platforms and operational dashboards, processing over **5,000** transaction records daily.
- Integrated with **PostgreSQL** to store and retrieve reconciliation data, ensuring data integrity and providing an audit trail for financial operations.
- Designed and implemented RESTful APIs to expose reconciliation status and reporting data to downstream business intelligence tools.

AWS-Powered Data Pipeline for Operational Reporting

- Engineered a data pipeline using **AWS Lambda** and **S3** to ingest and transform data from disparate sources for operational reporting.
- Automated the generation of daily and weekly reports by orchestrating data processing tasks with **Python** scripts, improving report delivery timeliness by **30%**.
- Implemented data quality checks and anomaly detection algorithms to flag suspicious data patterns within the operational datasets.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
