HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for data retrieval and manipulation, ensuring seamless integration with upstream and downstream systems.
- Wrote and optimized **SQL queries** across PostgreSQL and Oracle databases for data extraction, validation, and schema updates, supporting both operational reporting and application logic.
- Automated repetitive tasks and developed data processing scripts using **Python**, including ETL operations and scheduled report generation, reducing manual effort by approximately 15%.
- Designed and implemented unit and integration tests for new **Android device software features**, contributing to the overall quality assurance process for two major product releases.
- Participated in an **Agile/Scrum team**, actively engaging in sprint planning, daily stand-ups, and code reviews to deliver new functionalities for two-way radio products.
- Analyzed and debugged **Android device software defects**, meticulously tracking issues through Jira and collaborating with senior engineers to implement and verify fixes.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, managing application configurations and ensuring consistent environments across development and production.

SKILLS

Languages – Java, Python, SQL, Bash

Frameworks & Libraries – Spring Boot, Hibernate, Spring Data JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira, Confluence, Linux

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum

Domain – Android Platform, Embedded Systems, Mission Critical Communication, Software Quality Assurance, Production Support, Automation Scripting

PROJECTS

Android Radio Feature Development (HCL Technologies)

- Contributed to the development of new features for a **mission-critical digital two-way radio platform**, focusing on enhancing user experience and operational efficiency.
- Implemented and tested **Android device software** components, ensuring adherence to strict quality standards and functional requirements before field release.
- Collaborated with a multi-site engineering team to integrate new functionalities, participating in code reviews and defect resolution cycles using Jira.

Enterprise Application Integration Layer (HCL Technologies)

- Developed a **Java Spring Boot**-based integration layer to connect disparate enterprise systems, facilitating data exchange through RESTful APIs.
- Designed and implemented data persistence logic using **Hibernate** and Spring Data JPA, interacting with a **PostgreSQL** database to manage application state and user data.
- Wrote comprehensive **JUnit and Mockito tests** to ensure the reliability and correctness of the integration layer components, achieving over 90% code coverage for critical modules.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
