PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and deployed **Microsoft Intune** environments for a managed service provider's clients, including device compliance policies and application deployment strategies.
- Managed and executed **Azure infrastructure deployments** for enterprise clients, encompassing virtual machines, core networking configurations, and identity management solutions.
- Led network infrastructure projects, including the implementation and configuration of **firewalls, switches, and WiFi networks** for diverse customer environments.
- Translated client business requirements into detailed technical solutions for **Azure migrations and hybrid cloud setups**, ensuring alignment with project scope and objectives.
- Served as a senior technical escalation point for complex IT issues, guiding and mentoring **Level 1 and Level 2 technicians** on troubleshooting methodologies.
- Developed comprehensive technical documentation and handover materials for both internal teams and clients, facilitating smooth transitions post-project delivery.
- Containerized several internal Java applications using **Docker**, enabling consistent deployment across development, staging, and production environments on **AWS EC2**.

SKILLS

Cloud Platforms – Microsoft Azure, AWS EC2, AWS S3, AWS Lambda, AWS CloudWatch

Endpoint Management – Microsoft Intune, Endpoint Manager

Networking – TCP/IP, VLANs, Routing, Firewalls, Switches, WiFi, VPNs

Operating Systems – Windows Server, Linux

Directory Services – Active Directory, Microsoft 365

Development & Scripting – Java, Spring Boot, Python, Shell Scripting

Tools & Methodologies – Jenkins, Git, Jira, Confluence, Docker, Agile/Scrum

PROJECTS

Azure Infrastructure Migration for Financial Services Client

- Migrated a critical on-premises application suite to **Microsoft Azure**, reconfiguring network security groups, virtual networks, and load balancers to mirror the existing setup with enhanced resilience.
- Implemented **Azure Active Directory** integration for single sign-on and centralized user management across the client's cloud-hosted applications.
- Developed detailed operational runbooks and conducted knowledge transfer sessions for the client's IT operations team, covering monitoring, backup, and disaster recovery procedures.

Intune Device Management and Security Rollout

- Designed and deployed a company-wide **Microsoft Intune** policy set for a 500-device fleet, enforcing security configurations, software updates, and compliance standards.
- Automated the initial device enrollment and application deployment process using PowerShell scripts, reducing manual setup time by approximately **40%** per device.
- Provided post-implementation support, troubleshooting device compliance issues and refining policies based on user feedback and evolving security requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
