PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented secure, scalable network architectures using **VPCs**, **virtual networks**, and **load balancers** to support a global financial services client.
- Managed and provisioned cloud network resources across **AWS** and **Azure** tenants, ensuring high availability and performance for critical applications.
- Implemented network security measures including **firewalls**, **intrusion detection systems**, and **TLS encryption**, adhering to industry standards for data protection.
- Monitored network performance using tools like **Splunk** and **Dynatrace**, diagnosing and resolving issues to maintain stability and efficiency for **3,000+ users**.
- Integrated cloud environments with on-premises infrastructure using **IPSEC VPNs** and **BGP**, ensuring seamless connectivity and data flow.
- Automated network configuration tasks and routine operations using **Python scripting**, reducing manual effort by approximately **20%** and minimizing human error.
- Developed and maintained comprehensive documentation for network configurations, operational procedures, and disaster recovery protocols, supporting **compliance audits**.

SKILLS

Cloud Networking – AWS, Azure, VPC, Virtual Networks, Load Balancers, CloudWatch, EC2, S3, Lambda

Network Fundamentals – TCP/IP, VLAN, WAN, MPLS, DNS, DHCP, IPSEC, TLS, NAT, PAT, VPN, BGP, OSPF

Network Security – Firewalls, Intrusion Detection Systems, Encryption, Compliance

Network Hardware – Switches, Routers, Firewalls, Cisco, Palo Alto, Meraki

Automation & Scripting – Python, Shell Scripting, Jenkins, Git

Operating Systems & Virtualization – Linux, Microsoft Server, VMware vSphere

PROJECTS

Global Network Architecture for Financial Services

- Designed a resilient and scalable network architecture for a financial services client, incorporating **AWS VPCs** and secure **IPSEC VPNs** for hybrid cloud integration.
- Configured and managed **Azure Virtual Networks** and **load balancers** to ensure high availability for core banking applications, supporting approximately **3,200 daily transactions**.
- Implemented security policies and monitoring using **firewalls** and **Splunk**, maintaining strict adherence to regulatory compliance and audit trail requirements.

Network Automation and Monitoring Enhancement

- Developed Python scripts to automate the deployment and configuration of network devices across multiple sites, reducing setup time by **15%**.
- Integrated **Dynatrace** with network infrastructure to provide real-time performance insights and proactive issue detection, improving incident response times by **25%**.
- Authored detailed runbooks and documentation for network operations, facilitating smoother knowledge transfer within the support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
