PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented security controls for **AWS** and **Azure** cloud environments, focusing on policy-as-code principles.
- Developed Infrastructure-as-Code (IaC) using **Terraform**, translating security policies into maintainable configurations aligned with **CIS** benchmarks.
- Integrated and configured **Wiz** and **Microsoft Defender for Cloud** for continuous security posture assessment and monitoring across cloud assets.
- Collaborated with **security champions** across business units to provide guidance and support for cloud security requirements, facilitating integration into development workflows.
- Contributed to the development of a cloud security roadmap, identifying opportunities to enhance security practices and tooling for resilience.
- Investigated and responded to security incidents, performing root cause analysis and implementing corrective actions to prevent recurrence.
- Managed **Jenkins** CI/CD pipelines for automated security testing and deployment of IaC modules, ensuring consistent and secure infrastructure provisioning.

SKILLS

Cloud Security – Cloud Security Posture Management (CSPM), Policy as Code (PaC), Infrastructure as Code (IaC), Wiz, Microsoft Defender for Cloud, CIS Benchmarks, NIST 800-53

Cloud Platforms – AWS, Azure

IaC & Automation – Terraform, Python

DevOps & CI/CD – Jenkins, GitHub Actions, Git

Security Principles – Cloud Security, Identity and Access Management (IAM), Incident Response, Root Cause Analysis

Languages – Python, Java, SQL

PROJECTS

Cloud Security Policy Automation (HCL Technologies)

- Developed automated security policy enforcement using **Terraform** and **Python** scripts for cloud environments, targeting **AWS** resource configurations.
- Implemented checks for compliance against **CIS** benchmarks, reducing manual audit effort by an estimated **30%** for a financial services client.
- Integrated security policy validation into **Jenkins** CI/CD pipelines, ensuring adherence to security standards before infrastructure deployment.

Secure Cloud Infrastructure Deployment (HCL Technologies)

- Engineered secure baseline configurations for **AWS** EC2 instances and S3 buckets using **Terraform**, incorporating encryption and access control best practices.
- Containerized security tooling with **Docker** for consistent deployment and management within cloud environments.
- Wrote shell scripts for log analysis and health checks of deployed cloud services, supporting proactive issue detection.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
