PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Applied **Oracle E-Business Suite (EBS) R12** expertise to analyse and support financial, procurement, and project-related business processes, focusing on Purchasing, Accounts Payable, and Projects tables.
- Developed **SQL queries** and reports to extract, analyse, and present business information for procurement, financial analysis, and management reporting, directly supporting decision-making.
- Supported **budget monitoring**, accruals, and month-end financial reporting activities by preparing and validating data, including data quality checks and migration support.
- Created **data extraction and reporting solutions** using Oracle BI and Discoverer, transforming raw data into actionable insights for stakeholders.
- Managed **data migration activities** and performed rigorous data quality checks across multiple systems, ensuring accuracy and integrity of financial and project data.
- Collaborated with business and technical stakeholders to gather requirements, investigate root causes of issues, and develop appropriate solutions for Oracle EBS functionalities.
- Containerized **Java Spring Boot** applications and deployed them to **AWS EC2** instances, managing CI/CD pipelines via **Jenkins** for efficient code deployment and integration.

SKILLS

Oracle EBS – R12, Purchasing, Accounts Payable, Projects

Data Analysis & Reporting – SQL, Oracle BI, Discoverer, Microsoft Excel, Microsoft PowerPoint

Database & Data Management – Data Migration, Data Quality Checks, Accruals, Budget Monitoring

Software Engineering – Java, Spring Boot, REST APIs, Docker, AWS, EC2, Jenkins, Git

Methodologies & Tools – Agile, Scrum, Jira, Confluence

PROJECTS

Oracle EBS Financial Reporting Enhancement

- Developed a suite of **SQL queries** and reports within Oracle EBS R12 to automate month-end financial closing procedures, reducing manual effort by an estimated **30%**.
- Designed and implemented **data extraction routines** using Oracle BI Publisher to support accruals and budget variance analysis for the finance department.
- Performed extensive **data validation** and quality checks on financial tables within Purchasing and Accounts Payable modules to ensure reporting accuracy.

Java-based Procurement Data Integration Service

- Engineered a **Java Spring Boot** microservice to integrate with Oracle EBS Purchasing APIs, enabling automated data retrieval for procurement analytics.
- Containerized the service using **Docker** and deployed it to an **AWS EC2** instance, establishing a CI/CD pipeline through **Jenkins** for streamlined updates.
- Wrote comprehensive unit tests using **JUnit** to ensure the reliability and correctness of the data transformation and integration logic.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
