HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed **Java Spring Boot** backend services, building and maintaining **REST APIs** for core application functionality.
- Engineered **Python** scripts to automate data extraction and transformation tasks, reducing manual effort for reporting cycles by approximately **20%**.
- Designed and implemented **Hibernate** mappings and queries for data persistence, ensuring efficient data retrieval and storage for enterprise applications.
- Built responsive **React** web interfaces, integrating with backend **REST APIs** and **WebSockets** to deliver real-time data visualisations.
- Contributed to technical decisions and application architecture discussions, focusing on scalability and maintainability of the full stack.
- Managed **Git** repositories, conducting code reviews and adhering to **object-oriented design principles** for improved code quality.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time.

SKILLS

Frontend – React, JavaScript, TypeScript, HTML, CSS

Backend – Java, Spring Boot, REST APIs, WebSockets, Hibernate, JPA

Databases – PostgreSQL, MySQL, Oracle

Programming Languages – Python, Java, SQL

DevOps & Cloud – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins

PROJECTS

Real-time Analytics Dashboard for Financial Markets (HCL Technologies)

- Developed a **Java Spring Boot** microservice to aggregate and serve real-time market data via **WebSockets**.
- Built a dynamic **React** frontend to visualise market trends and trading activity, processing approximately **1,500** data points per second.
- Integrated with **PostgreSQL** for historical data storage and retrieval, supporting complex analytical queries for user reports.

Automated Reporting Pipeline for Enterprise Operations (HCL Technologies)

- Created a **Python** ETL pipeline to ingest data from multiple operational databases (**PostgreSQL**, **Oracle**) and generate daily summary reports.
- Implemented data validation checks and error handling within the **Python** scripts, reducing report generation errors by **15%**.
- Scheduled report generation using cron jobs on **Linux** servers and stored output in **AWS S3** for easy access by operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
