HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented REST APIs in **Java Spring Boot** for seamless data exchange between enterprise systems, incorporating robust error handling and request validation.
- Developed and maintained **Hibernate** entities and JPQL queries for complex data persistence and retrieval operations across relational databases, ensuring data integrity for core business functions.
- Authored **JUnit** and **Mockito** tests for Java components, achieving over 85% code coverage and enhancing system stability through rigorous unit testing and mock verification.
- Collaborated directly with enterprise clients to gather technical requirements for data integration solutions, translating business needs into actionable design specifications for trading partner connectivity.
- Troubleshot and resolved complex integration issues across diverse communication protocols and platforms, ensuring successful deployment and ongoing operational stability for client solutions.
- Managed multiple concurrent data integration projects, independently prioritizing tasks and adapting to changing client needs in a fast-paced consulting environment.
- Containerized integration services using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and networking for predictable performance and scalability.

SKILLS

Programming Languages – Java, SQL, Python

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Integration & Protocols – REST APIs, FTP(S), SFTP, AS2, HTTP(S)

Operating Systems – Linux, Windows

Tools – Jira, Confluence, Splunk, Dynatrace

PROJECTS

Enterprise Data Integration Framework (HCL Technologies)

- Engineered a reusable framework in **Java Spring Boot** to streamline the integration of disparate enterprise systems and external trading partners, reducing development time for new connections by an average of 30%.
- Implemented secure data transfer mechanisms using **SFTP** and AS2 protocols, ensuring reliable and compliant communication with a variety of client systems.
- Developed comprehensive unit and integration tests using **JUnit** to validate the framework's core components, contributing to a stable and maintainable integration solution.

Client Onboarding Automation for Payments (HCL Technologies)

- Automated the client onboarding process for a financial services dashboard using **Python scripting**, reducing manual configuration steps by 75% and accelerating time-to-deployment for new customers.
- Developed SQL scripts for data validation and initial setup within PostgreSQL, ensuring accurate configuration of transaction monitoring parameters for newly onboarded clients.
- Collaborated with business analysts to refine requirements for the onboarding workflow, ensuring all critical client-specific integration points were addressed.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
