PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and translated **business specifications** and requirements for client-side integrations into a SaaS platform, ensuring alignment with software development best practices.
- Contributed to **bug fixes**, comprehensive **testing**, and validation processes for the quantitative development team's analytics solutions.
- Adhered to high **coding standards**, implemented **automated testing** strategies, and maintained detailed **documentation** for new feature development.
- Developed and maintained **REST web services**, ensuring seamless integration points for enterprise client applications.
- Implemented core **algorithms** and **data structures** in **TypeScript** to enhance the performance of client-side integration modules.
- Participated in **code reviews**, providing constructive feedback to peers to maintain code quality and adherence to team standards.
- Deployed containerized applications using **Docker** on **AWS**, managing infrastructure configurations and ensuring efficient resource utilization.

SKILLS

Languages – TypeScript, JavaScript, SQL, HTML, CSS

Frameworks/Libraries – Node.js, React, NestJS

Cloud/DevOps – AWS, Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Power BI, Jira, Confluence, Jenkins, Git, Linux

Concepts – REST Web Services, Algorithms, Data Structures, Software Design, Automated Testing, CI/CD

PROJECTS

Aviation Analytics Platform Integration (HCL Technologies)

- Developed **TypeScript** modules for client-side integration with an aviation analytics SaaS platform, consuming **REST APIs** and displaying data through interactive components.
- Collaborated with business analysts to define and implement features for a new reporting dashboard, translating requirements into actionable development tasks.
- Implemented unit and integration tests for core functionalities, achieving over **85% code coverage** for critical modules.

Real-Time Data Visualization Dashboard (HCL Technologies)

- Built interactive **Power BI** dashboards to visualize real-time operational data, enabling stakeholders to monitor key performance indicators.
- Developed **SQL queries** and **Power Query** scripts to extract, transform, and load data from multiple enterprise systems into a centralized data model.
- Designed and implemented data models within Power BI to support complex analytical requirements and reporting needs for an enterprise client.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
