HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed product concepts for consumer, professional, and healthcare brands by participating in research and extracting insights to inspire design solutions, contributing to **category-defining solutions**.
- Designed holistic user experiences, championing user needs and motivations by applying a sustainability mindset to all aspects of concept development, directly impacting **product strategy**.
- Moved confidently between craft modelling and digital design tools to optimize creative workflow, building compelling design narratives that convey brand values and connect with target audiences.
- Collaborated openly with colleagues and clients, leading with creativity and urgency to present work clearly and persuasively to stakeholders, influencing project direction.
- Stayed informed on emerging technologies like **AI, Machine learning, and Generative AI**, integrating these advancements into design solutions to enhance product capabilities.
- Researched industry trends and advancements to inspire innovative design approaches, contributing to the development of novel product features and user interfaces.
- Supported and integrated with enterprise business systems, including ERP modules, via **REST APIs and database-level data flows** across PostgreSQL / Oracle / MySQL for enhanced operational efficiency.

SKILLS

Design Tools – Rhino, SolidWorks, Keyshot, Miro, Figma, Adobe Creative Suite, 3D modelling, Craft modelling, Hand sketching

Core Competencies – Industrial Design, User Experience (UX) Design, Product Development, Research, Concept Development, Design Thinking, Sustainability Mindset, Brand Value Integration, Storytelling, Stakeholder Presentation

Emerging Technologies – AI, Machine Learning, Generative AI, XR

Software Engineering Fundamentals – Java Spring Boot, Python, SQL, REST APIs, PostgreSQL, AWS, Docker, Linux, Git, Jenkins

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

PROJECTS

Consumer Product Concept Development for Smart Home Devices

- Developed innovative product concepts for a new line of smart home devices, focusing on user needs and integrating emerging technologies like **AI-driven automation**.
- Created detailed 3D models and craft prototypes using **Rhino and SolidWorks** to visualize form factor and user interaction, presenting designs to internal stakeholders.
- Applied a sustainability mindset throughout the concept development process, ensuring materials and manufacturing considerations aligned with environmental goals.

Healthcare Device User Experience and Prototyping

- Designed holistic user experiences for a professional healthcare device, emphasizing ease of use and patient safety through iterative prototyping and user feedback.
- Utilized **Figma and Adobe Creative Suite** for digital mockups and user flow mapping, and built functional prototypes in the studio workshop to demonstrate core interactions.
- Collaborated with engineering teams to ensure designs met technical and manufacturing requirements, facilitating a smooth transition from concept to potential production.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
