HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Participated in research phases to gather insights for design solutions, contributing to the conceptualization of new product features for enterprise clients.
- Developed product concepts for consumer and healthcare brands, focusing on user-centric design principles and market viability.
- Championed user needs and motivations throughout the design process, translating qualitative research into actionable design requirements.
- Applied a sustainability mindset to concept development, researching eco-friendly materials and manufacturing processes for new product lines.
- Collaborated openly with interdisciplinary teams and client representatives, presenting design concepts and technical specifications clearly and persuasively.
- Researched emerging technologies including **AI** and **machine learning** to inform innovative design approaches and integrate advanced capabilities into product concepts.
- Managed the end-to-end lifecycle of design iterations, from initial craft modelling and digital design tools to optimizing workflows for rapid prototyping.

SKILLS

Design Tools – Rhino, SolidWorks, Keyshot, Miro, Figma, Adobe Creative Suite, Teams

Design Concepts – Industrial Design, User Experience Design, Product Concept Development, Design for Manufacture, Sustainability Mindset, Brand Values

Emerging Tech – AI, Machine Learning, Generative AI, XR

Methodologies – Agile, Scrum, Research, Prototyping, User-Centric Design

Soft Skills – Communication, Presentation, Collaboration, Creativity, Problem-Solving

PROJECTS

Smart Home Device Concept (HCL Technologies)

- Developed an innovative concept for a next-generation smart home hub, integrating **AI-driven automation** and **machine learning** for predictive user behaviour analysis.
- Created detailed 3D models and renderings using **SolidWorks** and **Keyshot**, showcasing a sleek aesthetic and intuitive user interface for seamless integration into modern homes.
- Explored sustainable material options and manufacturing feasibility, ensuring the concept aligned with environmental considerations and production realities.

Wearable Health Monitor Design (HCL Technologies)

- Designed a discreet and ergonomic wearable health monitor, focusing on **user experience** and data privacy for sensitive healthcare applications.
- Crafted compelling design narratives and visualisations to present the product vision and key features to stakeholders, emphasizing brand alignment and user benefits.
- Researched and integrated potential advancements in sensor technology and connectivity, outlining a roadmap for future product iterations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
