PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Addressed and resolved customer inquiries via email and phone, maintaining a high standard for support interactions and aiming to exceed user expectations.
- Identified and documented product bugs and feature requests, collaborating with engineering teams to prioritize and track their resolution.
- Acted as a customer advocate by analyzing support trends, identifying recurring issues, and proposing actionable improvements to product features and internal processes.
- Reviewed and drafted content for the external Support Center and internal documentation, recognizing opportunities for clarity and accuracy improvements.
- Collaborated with cross-functional teams to investigate complex issues, root out answers, and serve as a knowledge resource for teammates.
- Managed personal workload and time effectively to ensure timely responses and comprehensive resolution of customer issues, demonstrating strong organizational skills.
- Contributed to the improvement of support skills and work processes by actively implementing feedback and engaging in continuous learning.

SKILLS

Support Tools – Jira, Confluence

Communication – English (fluent), Written Communication, Verbal Communication, Customer Interaction

Core Competencies – Problem-Solving, Attention to Detail, Time Management, Analytical Skills, Adaptability, Collaboration

Technical Exposure – SQL, Python, Java, AWS, Linux, CloudWatch, Dockers

Analytics & Reporting – Power BI, Tableau, DAX, Data Analysis

PROJECTS

Customer Inquiry Resolution System

- Developed a Python script to categorize incoming customer support emails based on keywords and sentiment, enabling faster routing to appropriate teams and reducing average response time by 15%.
- Created a set of standardized response templates in Confluence for common customer inquiries, which the support team adopted to ensure consistent messaging and improve efficiency by 10%.
- Analyzed support ticket data using SQL queries to identify patterns in user-reported issues, providing insights that informed the product team's feature prioritization.

Internal Documentation Enhancement Initiative

- Refactored and updated over 50 internal knowledge base articles using Confluence, improving clarity and accuracy for the technical support team.
- Designed and built a simple Power BI dashboard to track key support metrics, including ticket volume, resolution time, and common issue categories, enabling better operational oversight.
- Collaborated with senior engineers to translate complex technical explanations into user-friendly language for customer-facing support documentation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
