PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained operational resilience and continuity frameworks supporting **clinical and technical operations** across multiple hospital sites, ensuring service availability during disruptions.
- Conducted comprehensive **impact assessments and dependency mapping** for critical hospital services, identifying essential functions and informing recovery priorities to minimize patient care disruption.
- Collaborated with the **CTO Office** to translate high-level resilience requirements into actionable technical controls and service-level expectations for mission-critical systems.
- Monitored emerging threats and vulnerabilities within the healthcare technology landscape, advising on **risk mitigation strategies** to safeguard patient-facing services and data integrity.
- Coordinated and executed **testing and validation of continuity and recovery procedures**, including scenario exercises and post-incident reviews to refine operational resilience plans.
- Provided resilience oversight and guidance on **third-party risk management**, ensuring vendor alignment with organizational resilience objectives and regulatory standards.
- Supported organizational responses to **Critical Incidents**, working with cross-functional teams to maintain continuity of patient care and coordinate service recovery activities.

SKILLS

Operational Resilience & Business Continuity – NIS 2, DORA, Impact Assessment, Dependency Mapping, Risk Mitigation, Third-Party Risk Management, Incident Response, Disaster Recovery.

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Linux, Shell Scripting.

Programming & Scripting – Java, Spring Boot, Python, SQL.

Databases – PostgreSQL, MySQL, Oracle.

DevOps & CI/CD – Jenkins, Git, Docker, Code Reviews.

Monitoring & Observability – Splunk, Dynatrace.

Project Management & Collaboration – Jira, Confluence, Agile, Scrum.

PROJECTS

Healthcare Service Continuity Framework Development

- Designed and implemented a structured framework for business continuity planning across diverse healthcare IT systems, incorporating **NIS 2 and DORA principles** to meet regulatory demands.
- Mapped critical dependencies between clinical workflows and underlying technical infrastructure, identifying single points of failure and proposing mitigation controls.
- Developed standardized procedures for incident response and service recovery, reducing average recovery time for non-critical systems by **22%**.

Enterprise Systems Resilience Enhancement

- Assessed the resilience posture of interconnected enterprise systems, including ERP modules and operational platforms, focusing on **availability and data integrity**.
- Authored detailed runbooks and documentation for disaster recovery scenarios, enabling faster and more consistent response during simulated outages.
- Contributed to cross-functional teams in coordinating system-wide **change-control management** for resilience-related updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
