HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling approximately **500 requests per second** during peak hours and ensuring seamless inter-service communication.
- Implemented and managed **Hibernate** entities and JPQL queries for complex data persistence requirements in a multi-tenant financial services application, optimizing data retrieval performance by **18%**.
- Authored and executed **JUnit** and **Mockito** tests for critical Java components, achieving over **90% code coverage** and identifying significant defect patterns before production deployment.
- Participated in daily stand-ups, sprint planning, and backlog grooming sessions, contributing to technical estimations and ensuring timely delivery of features within an **Agile/Scrum** framework.
- Executed daily **reconciliations** of balances between trade and accounting systems, ensuring data integrity and accurate reflection of financial statements in line with **GAAP & STAT principles**.
- Collaborated with **business partners** across Fixed Income and Treasury departments to gather requirements for new reporting initiatives and support the monthly close process.
- Managed and monitored production environments using **Splunk** and **Dynatrace**, responding to critical incidents and ensuring adherence to strict service level agreements.

SKILLS

Languages – Java, Python, SQL, R, DAX

Frameworks/Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence, Oracle General Ledger, Microsoft Excel, Microsoft Word

Domain Knowledge – Investment Operations, Money Markets, Accounting, Financial Statements, Reconciliations, Audits (SOX Key Controls), Change Management, ERP Systems

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** for a financial services client by building new **Java Spring Boot** microservices to parse and display real-time transaction status, improving visibility for **over 50 operational users**.
- Automated reconciliation workflow data extraction using **Python scripting** and **SQL queries** against PostgreSQL, reducing manual data compilation time by approximately **30%** for the operations team.
- Developed and deployed new monitoring alerts within **Splunk**, enabling proactive identification of failed transaction messages and reducing critical incident response time by **15%**.

Investment Portfolio Analysis Tool (MSc Data Analytics Project)

- Designed and built interactive **Power BI dashboards** to visualize key metrics for short-term investment pools, including yield, duration, and credit quality, enabling stakeholders to make data-informed decisions.
- Utilized **DAX** to create complex measures for portfolio performance analysis and conducted data modeling in Power BI to support dynamic filtering and drill-down capabilities.
- Performed data extraction and transformation using **Power Query** from multiple data sources, ensuring data accuracy and consistency for reporting to internal business partners.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
