HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed scalable **Java Spring Boot** microservices for core platform features, including robust **RESTful API** endpoints supporting over 5,000 salon businesses.
- Implemented **Hibernate** and **JPA** for efficient data persistence and retrieval within the backend services, managing complex object-relational mappings for critical business entities.
- Authored comprehensive **JUnit** and **Mockito** test suites for new Java features, achieving over **85% code coverage** and ensuring high quality before deployment.
- Contributed to technical design discussions, evaluating trade-offs for distributed system architecture and performance improvements on a large-scale platform.
- Participated actively in **code reviews**, providing constructive feedback to peers and junior engineers to maintain code quality and share best practices.
- Owned features from initial design through deployment and ongoing iteration, including collaborating with product managers and designers on requirements.
- Containerised backend Java services using **Docker** and managed deployments to **AWS cloud** environments, ensuring smooth releases via CI/CD pipelines.

SKILLS

Languages – Java, JavaScript, SQL, Python, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

APIs – RESTful APIs, GraphQL

Tools & Methodologies – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Enterprise Java Backend for Salon Management (HCL Technologies)

- Developed a suite of **Java Spring Boot** microservices to manage salon operations, bookings, and customer data, integrating with existing enterprise systems.
- Implemented efficient data access layers using **JPA and Hibernate** with **PostgreSQL**, optimizing query performance for high-volume transaction processing.
- Containerised the microservices with **Docker** and established **Jenkins** pipelines for automated testing and deployment to development environments.

Customer Onboarding Platform Enhancements (HCL Technologies)

- Collaborated with client-facing teams to gather requirements for improving the new customer onboarding experience, focusing on technical integration points.
- Built **RESTful APIs** in Java to facilitate data exchange between the core platform and customer-specific integration modules, reducing manual setup time by approximately **30%**.
- Developed automated scripts for data validation and initial configuration checks during the customer onboarding process, improving initial setup success rates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
