PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained responsive frontend components using **Ember.js** and **JavaScript**, translating design mockups into functional user interfaces for enterprise SaaS applications.
- Collaborated with product managers and designers to gather requirements and define technical specifications for new features, ensuring alignment with business objectives and user experience goals.
- Implemented **Tailwind CSS** for efficient styling and layout, ensuring cross-browser compatibility and adherence to design system principles across the application.
- Authored comprehensive unit and integration tests for frontend code, achieving over **85% code coverage** and ensuring application stability during iterative development cycles.
- Participated in code reviews, providing constructive feedback to peers and junior engineers to maintain code quality, consistency, and adherence to architectural standards.
- Refactored legacy frontend codebases to improve performance and maintainability, reducing page load times by an average of **20%** across key user flows.
- Containerized frontend build and deployment pipelines using **Docker** and integrated them with **Jenkins** for automated testing and release management.

SKILLS

Frontend Frameworks – Ember.js, React, Angular

Languages – JavaScript, TypeScript, HTML, CSS, SQL, Java, Python

Styling – Tailwind CSS, CSS

Tools & Platforms – Docker, Jenkins, Git, Jira, Confluence, AWS, Linux

Backend & APIs – GraphQL, REST APIs, Spring Boot, Node.js

Data Analysis & BI – Power BI, Tableau, DAX, R, pandas, scikit-learn

PROJECTS

Customer Portal Enhancement (HCL Technologies)

- Developed a new customer self-service portal interface using **React** and **JavaScript**, integrating with backend REST APIs to display account information and support tickets.
- Implemented interactive data visualizations using **Power BI** to present key performance indicators to operations teams, improving visibility into system health.
- Wrote end-to-end tests using **Cypress** to validate user workflows and data integrity, ensuring a seamless experience for enterprise clients.

Internal Developer Dashboard (HCL Technologies)

- Built an internal dashboard using **Angular** and **TypeScript** to monitor application performance metrics and track incident response times for a suite of enterprise Java applications.
- Integrated with **Splunk** APIs to pull real-time log data and display error trends, enabling faster root cause analysis for production issues.
- Designed and implemented a REST API layer in **Java Spring Boot** to serve dashboard data, processing approximately 500 requests per minute during peak hours.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
