HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs supporting core financial operations, handling approximately 1,500 requests per minute during peak hours.
- Implemented complex data extraction and transformation logic using **Python scripts** and **pandas** to populate analytical datasets, reducing manual reporting time by 40% for the operations team.
- Managed production support for enterprise applications, resolving P1/P2 incidents within defined SLAs using **Splunk** and **Dynatrace** for root cause analysis.
- Generated detailed portfolio studies and performance summaries for **Portfolio Managers**, analysing positioning against investment guidelines and benchmarks using **advanced Excel**.
- Collaborated with **Legal and Compliance** teams to review and ensure pre- and post-trade compliance for client portfolios, resolving an average of 5-7 potential issues per week.
- Contributed to project work focused on improving portfolio management workflows, identifying opportunities to enhance efficiency through **data analytics** and automation.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, ensuring consistent environments across development and production.

SKILLS

Languages – Python, Java, SQL, R, VBA, Excel

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

BI/Analytics – Power BI, Tableau, DAX, Power Query, Bloomberg

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace

PROJECTS

Financial Operations Dashboard Enhancement

- Enhanced a **Java Spring Boot**-based payments operations dashboard by developing new modules for transaction monitoring and reconciliation workflows, improving data visibility for financial analysts.
- Automated the generation of daily operational reports using **Python**, processing approximately 50,000 transaction records and reducing report compilation time from 3 hours to 30 minutes.
- Designed and implemented robust data validation checks within the application's persistence layer using **PostgreSQL**, ensuring data integrity for critical financial transactions.

Portfolio Performance Analysis Tool

- Developed a reporting tool using **Python** and **pandas** to aggregate and analyse portfolio performance data from multiple sources, enabling faster generation of weekly performance attribution reports.
- Built interactive visualizations and summary dashboards in **Power BI** to present key portfolio metrics, risk exposures, and benchmark comparisons to **senior management**.
- Performed ad-hoc data analysis and querying using **SQL** to support specific requests from **Portfolio Managers** regarding market impact and instrument behaviour.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
