PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated maintenance activities and planning for scheduled shutdowns, ensuring readiness for critical operational periods across multiple facility sections.
- Supported reliability projects aimed at improving equipment uptime, contributing to a **15% reduction** in unplanned downtime incidents over six months.
- Reviewed equipment performance data to develop preventive and predictive maintenance strategies, identifying key areas for proactive intervention.
- Led root cause analysis for equipment failures and maintenance-related quality issues, implementing corrective actions that prevented recurrence in **90%** of cases.
- Drove continuous improvement initiatives across maintenance operations by standardising work instructions and documentation processes for a team of **8 technicians**.
- Coordinated the onboarding and induction of new maintenance technicians, ensuring completion of required training, documentation, and compliance activities on schedule.
- Developed and delivered **technical training programmes** for new and existing syringe filling equipment, defining maintenance competency requirements and structured training pathways.

SKILLS

Maintenance & Reliability – Equipment Reliability, Shutdown Planning, Root Cause Analysis, Preventive Maintenance, Predictive Maintenance, Continuous Improvement, Technical Training, GMP, Quality Requirements, Safety Compliance

Engineering Disciplines – Mechanical Engineering, Electrical Engineering, Chemical Engineering, Pharmaceutical Manufacturing

Project Management – Project Planning, Coordination, Organisational Skills, Cross-Departmental Collaboration, Priority Management

Technical Skills – Technical Writing, Documentation Standardisation, Work Instructions, Training Materials Development, Coaching, Mentoring

Software & Tools – Jira, Confluence, MS Office Suite (Word, Excel, PowerPoint)

PROJECTS

Pharmaceutical Equipment Maintenance Optimisation

- Developed and implemented a structured maintenance investigation process for syringe filling equipment, reducing average troubleshooting time by **20%**.
- Created comprehensive technical training modules and work instructions for **new syringe filling equipment**, standardising onboarding for maintenance technicians.
- Collaborated with Engineering and Quality teams to document and implement new maintenance procedures that aligned with **GMP and regulatory requirements**.

Reliability Improvement Initiative for Manufacturing Assets

- Assisted in the review of equipment performance data to identify failure patterns and develop targeted **preventive maintenance strategies**.
- Contributed to the planning and execution of a major facility shutdown, coordinating maintenance tasks to minimise operational impact.
- Provided technical guidance and support to maintenance personnel, enhancing understanding of critical equipment operations and troubleshooting techniques.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
