PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated maintenance activities and planned scheduled shutdowns for critical equipment, ensuring adherence to project timelines and resource allocation.
- Supported reliability projects focused on improving equipment uptime and reducing unplanned downtime by analyzing performance data and identifying failure trends.
- Reviewed equipment performance data to develop and refine preventive and predictive maintenance strategies, contributing to enhanced operational stability.
- Led root cause analysis investigations for equipment failures and maintenance-related quality issues, implementing corrective actions to prevent recurrence.
- Drove continuous improvement initiatives across maintenance operations by standardizing training materials, work instructions, and qualification processes.
- Coordinated the onboarding and induction of new maintenance technicians, ensuring completion of required training, documentation, and compliance activities on schedule.
- Developed technical training programs for syringe filling equipment, collaborating with subject matter experts to ensure alignment with current procedures and regulatory requirements.

SKILLS

Maintenance & Reliability – Equipment Reliability, Downtime Reduction, Preventive Maintenance, Predictive Maintenance, Root Cause Analysis, Maintenance Planning, Shutdown Planning

GMP & Quality – Good Manufacturing Practices (GMP), Quality Assurance, Regulatory Compliance, Technical Training Programs, Compliance Activities

Engineering Disciplines – Mechanical Engineering, Electrical Engineering, Chemical Engineering, Biopharmaceutical Manufacturing

Project Management & Coordination – Project Planning, Coordination, Organisational Skills, Cross-Departmental Work

Technical Communication – Technical Writing, Communication Skills, Presentation Skills, Subject Matter Experts

PROJECTS

Pharmaceutical Equipment Reliability Enhancement

- Analyzed maintenance logs and performance data for syringe filling equipment to identify recurring failure patterns and areas for improvement.
- Developed and implemented a refined preventive maintenance schedule, incorporating predictive techniques for key components, resulting in a 15% reduction in critical equipment failures over six months.
- Documented new maintenance procedures and updated existing ones to reflect current best practices and regulatory standards.

Maintenance Technician Onboarding & Training Program

- Designed a structured onboarding pathway for new maintenance technicians, detailing essential training modules and qualification checkpoints.
- Created standardized technical training materials and work instructions for syringe filling machinery, ensuring consistency across all new hires.
- Coordinated with operations and quality teams to gather input for training content, ensuring alignment with site safety, GMP, and quality requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
