HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained scalable, high-performance web applications using **React** and **Next.js**, translating complex wireframes into responsive, accessible user interfaces.
- Designed and implemented server-side logic and microservices using **Node.js**, ensuring efficient data processing and integration with front-end applications.
- Architected and developed secure, high-performance **REST APIs** to support data-driven applications and facilitate seamless inter-service communication.
- Managed database schemas in both **PostgreSQL** and **MongoDB**, optimizing queries and data structures to support application performance and scalability.
- Collaborated with UI/UX designers to translate wireframes and visual designs into high-quality, responsive code, focusing on **accessibility (WCAG)** and modular component design.
- Containerised backend services using **Docker** and managed deployments via **Jenkins CI/CD pipelines**, automating build and deployment processes for faster release cycles.
- Participated in sprint planning and technical estimation sessions, identifying technical risks and dependencies to provide transparency on project progress to the Programme Manager.

SKILLS

Frontend – JavaScript (ES6+), TypeScript, React, Next.js, CSS (Modern Methodologies), WCAG Accessibility

Backend – Node.js, REST APIs, Microservices

Databases – PostgreSQL, MS SQL, MongoDB, Redis (Caching)

DevOps – Azure, Docker, Jenkins CI/CD Pipelines, Git

Methodologies – Agile, Scrum, Technical Risk Management

PROJECTS

Enterprise Web Application Development

- Built a full-stack web application using **React** and **Node.js**, implementing features for user authentication and data management.
- Designed and optimized **PostgreSQL** database schemas to support complex data relationships and ensure efficient data retrieval.
- Developed a suite of REST APIs to serve data to the frontend, ensuring robust error handling and clear documentation for internal use.

Microservices Architecture with TypeScript

- Developed a set of interconnected microservices using **Node.js** and **TypeScript**, focusing on modular design and independent deployability.
- Integrated services with **MongoDB** for flexible data storage, implementing caching strategies with **Redis** to improve response times.
- Containerised services using **Docker** and established basic CI/CD workflows for automated testing and deployment to cloud environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
