HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **scalable backend services** on **Microsoft Azure**, focusing on microservices architecture and cloud-native solutions.
- Designed and implemented **RESTful APIs** for seamless data exchange between distributed systems, adhering to OpenAPI specifications.
- Managed **SQL and NoSQL databases**, performing schema design, query optimization, and data migration tasks to ensure data integrity and performance.
- Contributed to technical design discussions and conducted thorough **code reviews**, ensuring adherence to best practices and project standards.
- Enhanced and maintained **CI/CD pipelines** using Git/GitHub workflows, automating build, test, and deployment processes to accelerate release cycles.
- Wrote and maintained comprehensive **technical and API documentation**, facilitating knowledge sharing and onboarding for new team members.
- Containerised backend applications using **Docker** and deployed them to **Kubernetes** clusters for improved scalability and manageability.

SKILLS

Cloud Platform – Microsoft Azure, Azure Functions, Azure App Service, Azure SQL, Service Bus, AWS, EC2, S3, Lambda, CloudWatch

Backend Development – Node.js, Python, JavaScript, REST APIs, Microservices, Java, Spring Boot

Databases – SQL, NoSQL, PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Docker, Kubernetes, Git, GitHub, Jenkins

Programming Languages – Python, Java, JavaScript, SQL

Observability & Monitoring – Splunk, Dynatrace

PROJECTS

Cloud-Native Billing Service (Azure)

- Developed a **cloud-native billing service** using **Azure Functions** and **Service Bus**, processing over 5,000 transaction events daily.
- Implemented **REST APIs** for subscription management and invoice generation, integrating with Azure SQL database for persistent storage.
- Containerised the service with **Docker** and managed deployment configurations for a staging environment on Azure App Service.

API Gateway for Enterprise Integrations

- Built a Python-based **API Gateway** to manage and secure incoming requests for multiple backend microservices, handling approximately 1,500 requests per hour.
- Implemented rate limiting and authentication middleware using Flask, connecting to a PostgreSQL database for user and service credential management.
- Authored detailed API documentation and integrated basic logging for request tracing and troubleshooting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
