HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained responsive web applications using **React** and **TypeScript**, integrating with backend REST APIs to deliver modern digital products.
- Built user interfaces with **HTML** and **CSS**, ensuring cross-browser compatibility and adherence to design specifications.
- Implemented REST APIs in **Java Spring Boot** for seamless integration between frontend applications and backend services, handling approximately 1,500 requests per minute.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing CI/CD pipelines with **Jenkins** for automated builds and deployments.
- Collaborated with cross-functional teams, including product managers and QA engineers, to define requirements and deliver software solutions within agile sprints.
- Supported application performance through rigorous testing, debugging, and ongoing improvements, reducing critical bug reports by **18%** over a 3-month period.
- Worked with **PostgreSQL** databases, writing complex SQL queries for data retrieval and performing schema updates as part of feature development.

SKILLS

Frontend Development – JavaScript, TypeScript, React, Next.js, HTML, CSS

Backend Development – Node.js, Express, Java, Spring Boot, REST APIs

Databases – SQL, PostgreSQL, NoSQL

Cloud Platforms – AWS, Azure, GCP

DevOps & Tools – Git, GitHub, Docker, Jenkins

Methodologies – Agile, Scrum

PROJECTS

Customer-Facing Web Application Enhancements (HCL Technologies)

- Developed new user-facing features for a financial-services client's web portal using **React** and **TypeScript**, improving user engagement metrics by **15%**.
- Integrated real-time transaction data streams into the frontend dashboard via custom **REST APIs** built with **Java Spring Boot**, enabling faster operational insights.
- Collaborated directly with client business analysts to gather requirements for dashboard enhancements, ensuring alignment with operational needs and regulatory awareness.

Internal Developer Tooling Platform (HCL Technologies)

- Built a suite of internal tools using **Python** and **Flask** to automate common development tasks, reducing manual effort for a team of 10 engineers.
- Containerized the tooling application with **Docker** and managed its deployment on **AWS Lambda**, ensuring scalability and ease of access for developers.
- Designed and implemented a simple REST API interface for the tooling platform, allowing other internal services to integrate with its automation capabilities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
