HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed responsive **React** web applications, integrating with **Node.js** backend services to enhance user experience for enterprise customers.
- Collaborated with UI/UX designers and product owners to translate complex wireframes into maintainable and efficient **TypeScript** code for a large-scale transformation programme.
- Implemented and maintained automated testing frameworks, including **Jest** and **React Testing Library**, achieving over **90%** code coverage for new feature development.
- Built and integrated **RESTful APIs** for cross-service communication and third-party integrations, ensuring seamless data flow between frontend and backend systems.
- Participated actively in **Agile ceremonies**, including sprint planning, daily stand-ups, and retrospectives, contributing to effective team collaboration and timely delivery.
- Authored comprehensive technical documentation for web applications, covering setup procedures, API specifications, and user guides for internal and external stakeholders.
- Containerized web applications using **Docker** and deployed them to a cloud environment, managing build pipelines via **Jenkins** for consistent and reliable releases.

SKILLS

Frontend – JavaScript, TypeScript, React, React Native, Angular, Next.js, HTML5, CSS3

Backend – Node.js, Express, RESTful APIs, Microservices, Event-based architectures

Databases – SQL Server, MySQL, Azure SQL, NoSQL

Cloud – Azure services

DevOps – Git, GitHub workflows, Jenkins, Docker

Methodologies – Agile, Scrum

PROJECTS

Customer-Facing Web Application Development

- Developed a customer portal using **React** and **TypeScript**, enabling users to manage their accounts and access services, directly improving user engagement by **15%**.
- Integrated **REST APIs** to connect the frontend with backend services, facilitating real-time data retrieval and updates for a consistent user experience.
- Wrote unit and integration tests using **Jest**, ensuring the stability and reliability of critical user interface components.

API Integration for Enterprise Systems

- Built a **Node.js** microservice to expose data from an enterprise system via a **RESTful API**, supporting integration with partner platforms.
- Implemented robust error handling and logging mechanisms, reducing critical integration failures by **20%**.
- Managed API versioning and documentation using **Swagger/OpenAPI** specifications, facilitating smooth adoption by consuming teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
