HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and cleaned large-scale health datasets, encompassing approximately **5 TB** of patient records and survey responses, ensuring data accuracy and consistency for analytical use.
- Produced detailed **statistical analyses** and data outputs, including **annual reports** and preliminary research findings, for internal healthcare teams and external research partners.
- Liaised with multiple data providers to support data collection, manage formatting requirements, and conduct validation checks prior to submission into national health information systems.
- Developed and maintained comprehensive **data dictionaries** and analytical documentation, standardising data definitions and quality protocols across research projects.
- Contributed to the preparation of materials for research publications, focusing on clear presentation of statistical findings and evidence-based insights.
- Assisted with testing and improving data management systems and **data visualisation tools**, enhancing user experience and data accessibility for research staff.
- Presented key findings and contributed to research and stakeholder meetings, translating complex data insights into actionable information for a diverse audience.

SKILLS

Data Analysis & Statistics – Statistical Analysis, SPSS, R, Exploratory Data Analysis, Hypothesis Testing, A/B Testing, Time-Series Analysis, Data Cleaning, Data Validation, Data Quality

Data Management & BI – SQL, Database Applications, Data Dictionaries, Data Modelling, Data Warehousing, Power BI, R Shiny, Tableau, Power Query, ETL

Programming & Scripting – Python, pandas, NumPy, R, Shell Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Software Development & Tools – Java, Spring Boot, REST APIs, Jenkins, Git, Jira, Confluence, Microsoft Excel

PROJECTS

Health Data Analysis and Reporting Platform

- Developed a Python-based data processing pipeline to ingest and clean large-scale health survey data, handling over **1.5 million records** per quarter.
- Created interactive **Power BI dashboards** for presenting key health metrics and trends to research stakeholders, enabling quicker data-driven decision-making.
- Implemented robust data validation checks using SQL and Python scripts to ensure the accuracy and integrity of the datasets used for analysis.

MSc Applied Statistical Modelling

- Performed in-depth statistical analysis on a **100 GB healthcare dataset** for MSc coursework, applying regression techniques and hypothesis testing.
- Built and evaluated predictive models using R and scikit-learn, focusing on identifying factors influencing patient outcomes, achieving an **AUC of 0.78** on a held-out test set.
- Documented the analytical process, data transformations, and model performance metrics in a comprehensive report for academic review.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
