HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Automated the deployment and configuration of **HashiCorp Vault** using **Terraform**, reducing manual setup time by **40%** for new cloud environments.
- Integrated **CI/CD security controls** into Jenkins pipelines, enforcing code quality and vulnerability scanning before deployment to AWS and Azure.
- Developed **Python** and **Bash scripts** to automate remediation workflows for common security misconfigurations detected in cloud infrastructure.
- Managed and supported enterprise applications in production environments using **Splunk** and **Dynatrace** for monitoring and incident response.
- Designed and implemented **REST APIs** using **Java Spring Boot** for cross-service data exchange and system integrations.
- Containerised applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency.
- Collaborated with cross-functional teams on change-control management for system updates and coordinated user acceptance testing for enterprise business systems.

SKILLS

Security Tools – HashiCorp Vault, Terraform, OPA, Sentinel

Cloud Platforms – AWS, Azure

Programming Languages – Python, Bash, Java

DevOps & CI/CD – Jenkins, Docker, Kubernetes

Infrastructure as Code – Terraform

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

PROJECTS

Automated Cloud Security Provisioning (HCL Technologies)

- Engineered **Terraform modules** to automate the deployment of **HashiCorp Vault** instances across AWS and Azure environments.
- Implemented **policy-as-code** using Sentinel to enforce security configurations and compliance checks within Vault.
- Developed automated remediation scripts in **Python** to address common security vulnerabilities identified in cloud deployments.

Secure CI/CD Pipeline Enhancement (HCL Technologies)

- Integrated security scanning tools and static analysis into **Jenkins** pipelines for automated vulnerability detection in code.
- Configured **Docker** container builds to include security best practices and minimize attack surface.
- Established automated deployment gates that required successful security checks before code could progress to production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
