PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed daily reconciliation of investment balances between trade and accounting systems, identifying and resolving discrepancies for **money market portfolios**.
- Executed monthly reconciliation of accounting system data against the **Oracle general ledger**, ensuring accuracy for financial statement reporting.
- Managed monthly reconciliation processes between the accounting system and **custodian banks**, verifying asset holdings and transaction postings.
- Assisted with internal and external audits, providing documentation and evidence for **SOX Key Controls** related to investment operations.
- Collaborated with business partners across **Fixed Income, CIO, and Treasury** departments to support monthly and quarterly financial close processes.
- Supported systems initiatives by documenting issues and working with the **technology support team** to implement solutions for operational tools.
- Developed Python scripts to automate data extraction and reporting for **investment analysis**, reducing manual effort by an estimated 15%.

SKILLS

Core Finance & Accounting – Investment Operations, Money Markets, Financial Statements, GAAP, STAT, Oracle General Ledger, Reconciliations, Audit Support, SOX

Programming & Scripting – Python, SQL

Data Analysis & BI – Microsoft Excel, Microsoft Word, Data Analysis, Reporting

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, AWS

Methodologies – Agile, Scrum

PROJECTS

Investment Reconciliation Automation (HCL Technologies)

- Developed Python scripts to automate the reconciliation of trade data against accounting system records for a financial services client, handling approximately **5,000 transactions daily**.
- Implemented data validation checks using SQL queries against PostgreSQL to ensure data integrity before loading into the reconciliation engine.
- Created summary reports detailing reconciliation exceptions and resolution status, aiding operations teams in faster issue triage.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced an existing payments operations dashboard by integrating new data sources via Python ETL scripts, providing improved visibility into **transaction monitoring** workflows.
- Wrote SQL queries to extract and aggregate data from Oracle and PostgreSQL databases for operational reporting, supporting reconciliation and audit trail requirements.
- Assisted in troubleshooting production issues and implementing bug fixes for the dashboard, ensuring continued availability for business analysts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
