HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Python** scripts to automate data ingestion and transformation processes, reducing manual processing time by **30%** for weekly reporting.
- Designed and implemented **Java Spring Boot** REST APIs for core business services, handling approximately **1,500 requests per minute** during peak loads.
- Managed production support for enterprise applications on **AWS** using **Splunk** and **CloudWatch** for monitoring, resolving over **50 critical incidents** within SLA targets.
- Contributed to the development of AI-driven network analysis tools, focusing on **task automation** and performance optimization for **5G/6G systems**.
- Built data pipelines and experimentation workflows using **Python** and **Pandas** to support AI/ML model development and analysis.
- Implemented and iterated on **AI/ML solutions**, including feature engineering and model evaluation, within **Linux-based environments**.
- Containerized microservices using **Docker** and managed deployments on **Kubernetes (EKS)**, improving deployment consistency and reducing rollback incidents by **15%**.

SKILLS

Programming Languages – Python, Java, SQL, C, C++

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker, Kubernetes (EKS), CI/CD, Jenkins, Git

AI/ML & Data Science – NumPy, Pandas, scikit-learn, PyTorch, TensorFlow, Machine Learning Concepts, LLMs, Prompt Engineering, MLOps, Data Pipelines

Frameworks & Libraries – Spring Boot, FastAPI, Flask, LangChain

Databases – PostgreSQL, MySQL, Oracle, Vector Databases

Networking – TCP/IP, UDP, 5G/6G Systems

PROJECTS

AI-Driven Network Performance Analysis Framework

- Developed a **Python** framework to automate the collection and analysis of network performance data for 5G/6G systems, enabling faster identification of bottlenecks.
- Implemented **machine learning models** using **scikit-learn** and **Pandas** to predict network congestion events, achieving an accuracy of **88%** on historical data.
- Integrated the framework with **Linux-based systems** for real-time data streaming and analysis, providing actionable insights to senior engineers.

Automated Data Pipeline for ML Experimentation

- Engineered a scalable **Python** data pipeline on **AWS Lambda** and **S3** to process and prepare datasets for ML model training and experimentation.
- Designed and implemented data validation checks within the pipeline to ensure data quality and consistency, reducing downstream errors by **20%**.
- Managed the pipeline's lifecycle and deployment using **Docker** and basic **CI/CD** principles, supporting rapid iteration on ML model prototypes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
