HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained system software for data center operations, focusing on **Linux environments** and container orchestration with **Docker**.
- Contributed to feature development and issue triaging for AI-based platforms, working with **Python** scripts for data processing and automation.
- Collaborated with cross-functional teams on the design and implementation of cloud infrastructure components, participating in **code reviews** and knowledge sharing sessions.
- Supported test teams in validating new features for AI inference workflows on **Qualcomm hardware**, ensuring system-level stability.
- Gained exposure to **AI/ML inference workflows** and model deployment, including working with small test models and **Cloud AI SDKs**.
- Participated in system-level debugging and deployment across **bare metal, VM, and containerized** environments, including **Windows-based tools**.
- Managed incident response and production support for enterprise applications, ensuring adherence to **SLAs** and performing root cause analysis using **Splunk**.

SKILLS

Languages – C++, Python, C, C#, Java, Rust

Cloud & Containerization – Docker, Linux, Windows, AWS (EC2, S3, Lambda, CloudWatch), Kubernetes

AI/ML – AI inference, ML models, Cloud AI SDKs, LLMs, Hardware acceleration

Development Tools – Git, Jenkins, Jira, Confluence, CMake, Visual Studio

System Programming – PCIe, Device interaction, Bare metal, VMs

PROJECTS

Data Center System Software Development

- Engineered **Python** scripts to automate build processes and manage configurations for a fleet of **Linux** servers within a data center environment.
- Containerized core system services using **Docker**, improving deployment consistency and reducing setup time for new nodes by approximately **30%**.
- Worked with **system-level concepts** including device interaction and bare-metal provisioning, contributing to the stability of the underlying infrastructure.

Cloud AI SDK Integration and Testing

- Integrated and tested **AI models** with a proprietary **Cloud AI SDK**, focusing on performance tuning for hardware acceleration platforms.
- Developed **Python** utilities to streamline the testing of **ML inference workflows**, automating the validation of model outputs against expected results.
- Collaborated with the AI engineering team to debug integration issues and document the usage of the SDK for internal development teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
